Thread: [How to ruin someone's life with a dox?](#)

Homicide1337 - May 1, 2020, 5:28 am

What can i do to harm someone with his informations?

I know some methods like swatting and pizza bombing, but I need more ideas. Maybe stuff we can do with a phone number or a full name etc.

Hero - May 1, 2020, 5:37 am

For what reason are you trying to ruin a persons life? Are you really that salty?

Smexy - May 1, 2020, 5:39 am

step one is to not share this kind of information.

lol bro.

Homicide1337 - May 1, 2020, 5:39 am

I don't want to actually ruin someone's life yet, just wanna collect some ideas so I can threaten peeps in the future lmao

lol bro.

This. Once you get caught the feds will be on your booty for asking such things.

Homicide1337 - May 1, 2020, 5:42 am

I'm not planning to do anything worth getting caught, the term "life ruining" is more of an exaggeration

Smexy - May 1, 2020, 8:23 am

Well I personally only use it whenever a person is attacking me heavily.

Those epic doxing theory stories always end up as trouble.

cig - May 1, 2020, 8:30 am

Feds gonna slam OP on the top of a cop car.

There are effective ways to do this. However, I do not urge anyone to do so and I do not support such activities, for this I will not share such knowledge. And a little advice from me: Build instead of ruin?

P.S. If you want to learn something, take a look around this forum. You will find here many more interesting things?

Ross123 - October 31, 2024, 6:05 pm

I mean it's not ruining his life but it will do for a couple days, grab a bag, fill it with shit and put an

explosive in it and throw it at the person's window. i've done this before LoL

NecroticNightmare - November 3, 2024, 6:20 pm

Why would you want to do this to someone? This just screams your immature. Forgiveness is best in this situation, and best in 99% of situations.

kazuma - November 3, 2024, 7:20 pm

In this new age of AI there are infinite awful things that could be done to someone with a little creativity and effort.

People often go to swatting their target after doxxing them that's far to noisy.
deepfake porn could be made of a person and spammed to their friends and family,
voice cloning could allow a person to be set up instead of being swatted, a call could be made as the target trying to swat someone else.
in the same logic as above there are count less scenarios where one could create legal issues for the target.

The most effective method would be to create fake accounts of the target and then create fake narratives of less than moral behavior.

Publishing nudes under the real name so that's what comes up in future when they try get a job etc.

In the most extreme cases doxxing can lead to identity theft which if abused in certain ways will ruin a persons life.

I don't condone any of these behaviours In fact I outright discourage them as others have replied to you, If you want to have a life where you can trust the people around you and enjoy the love they give you, build don't destroy.

This seems like a post either a literal child, or a person with the anger management and impulse control of a child, would post.

Grow up. Stop trying to be an edgy keyboard warrior threatening peoples livelihood. Do something productive.
