Thread: [Won like 500 bytes from blackjack in 30 seconds](#)

Aedan_ - May 1, 2020, 7:36 pm

I felt like shit tonight, and I had 140 bytes in my account so I said screw it I'm betting all of it.

Won the first game so I had 280 bytes and bet all of that, ended up getting a King and an Ace so 21 and whatever that's called so I ended up with 700 bytes.

Should I test my luck one more time and bet 500 more?

NewRulez - May 1, 2020, 7:44 pm

yes. go all in baby. bytes pre useless anyways

Toosii - May 1, 2020, 7:45 pm

I do this 20 times a day, but yeah nice job bro

Aedan_ - May 1, 2020, 7:45 pm

Just bet all of them and loss.

That's gambling 101 for you. Welcome to the Club. I learnt it the hard way not to bet all the winnings after a huge win. Bet a portion, if you fail stop right there. Don't push your luck.

Bob White - May 1, 2020, 10:33 pm

I got most of my bytes from the crypto game, and I just spend them on my hackumon game. I get the urge to gamble often but I never win, as you never do with gambling irl, and I end up wishing I had not played in the first place.

I would play HF Poker if that was a thing though, with bytes, against other players. Sounds like a gamblers dream!

de_g3ntl3m4n - May 1, 2020, 10:39 pm

dang homie hahah thats whats you you like playing black jack would you say you are a preety nice player? hahahha you think you can get luckier?

omy11 - May 1, 2020, 10:39 pm

I was about to comment so you can quit while you're ahead but i see i was too late.

Fuck slots, if it would guarantee me the Dicey award I will but we all know that's a long shot.

You'll probably get it if you go 1 byte by 1 byte ! DO IT

Spend half of whatever you win. So spend 1.5k, so that your stack still grows

Bytes are not use less. They help you to bump your thread anyways. Its always a better choice
rather than a LQP to bump. Also if you want to show your love to some post, these bytes help you a
lot. Every thing here has some logic.

I think OP has lost all his bytes in Blackjack

?roye - May 7, 2020, 2:29 pm

Use the martingale system, its safer. Even though you're just betting on bytes but its still fun. haha

Me, 10 minutes ago, with around 200 bytes, doesn't agree either anymore. xD

I know you lost. At least you felt the gist of gambling here.

You could use Bytes for so many things. Some even sell them. So useless? I don't think so.

SIM-32901749 - May 7, 2020, 2:51 pm

nice win brother i wish i could win on that game i always loose thought haha
