This is how your "money making ebooks/methods" free or paid work in a nutshell.

>Play, don't get plaid.

THIS IS WHY NOT TO BUY MONEY MAKING EBOOKS, THEY ARE BY PROXY PYRAMID SCHEMES

Open a deal dispute.

On-topic though I've played around with the thought of starting an MLM company a few times. It would be easy enough. Nice website, HQ promo videos, live chat with a couple VA's, and a bit of cash to test ads on various platforms.

I end up always feeling like shit about the idea and moving on. Preying on the weak.

like i say, always only buy services and tools needed to complete a job that will get you paid! never pay for methods, research your own method, there is information available for freee!

Nice video tbh. I've known some people getting into MLM, dreaming of this fantasy lifestyle.

This is so fucked up, but true. MLM companies suck ass and it sucks when you see family members getting into it
