Thread: [No bullshit on how to make money. FORGET TUTORIALS HERES HOW MONEY REALLY WORKS.](#)

MyFlowHoe - May 3, 2020, 3:29 pm

Online money making in a nutshell

- >Something that solves a problem for someone/something they want

- >A way to get paid

Great thats money making in a nutshell

Money management

- >Spend less than you make

- >Set aside 1/5 of what you make and set it aside, you'll never go fucking broke

- >Focus on whats essential only

- >Pay bills up in advance

- >Sit on a money pile by calculating how much your lifestyle costs, and then times that monthly number by 12, and then by 20 to get a "goal number"

[b]Investing 101

- >If you're broke, start with services for money since you dont have a product, and time is short.

- >An MVP is a minimum viable product, and an MVS is a minimum viable service. Both are quick things that add value, and help ease peoples pain

- >Sales is based on fixing someones pain, and knowing there are enough people with the same pain in a "niche"/"targeted area.

- >An asset is something that puts money in your pocket, a liability is something that takes money out

- >Starting a business with no money is based on the first two principals, be it online or irl.

- >Non asset based investment skills include, bartering, and holding things that have value like gold, gems, art, or "things" that are deemed valuable but are not cash.

Overall good luck ?

Love it, simple and not \$10000. Great post

Goldking369 - May 3, 2020, 8:21 pm

Great post. To the point. Better than an E-Book

DOSH - May 5, 2020, 7:29 am

& that's all you need to know.

If you cant figure out the rest than you don't want financial freedom I guess..?
