Stanley - April 21, 2021, 6:19 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I've been mostly off hackforums for the past year or so now, but apparently there's a new thread for neat+staid's exchange, so that means another rambling vouch from my experience years ago is getting posted here.

Let me start out by saying I hated them when I was trying to compete with them ?

Neat and Staid are the best currency exchangers on HackForums, and have been probably since they started it.

Used to transact thousands with these fellows, never once even had an issue that would've needed resolving.

Always fast, always stocked up in any currency I've ever needed, and always great rates.
100% recommendation from me.
