I sent you the revised version that works for everyone but you just ignored it. I'm not sure at which point I'm trying to scam you. You've been harassing me ever since.

The Director - May 7, 2020, 9:03 am

Interested, but would you be willing to send me the updated version beforehand to make sure it's working due to your previous customer's comments? What are the limits we can buy and minimum needed? I'm willing to test the minimum amount just to make sure it works.

If you have a revised version then why not update this thread? The rates mentioned here are absurd at best.

I have created a new thread. What should I change about it ? It's still being honest. I removed the mention specifying it didn't work in the US as it now does. I have provided older customers with the new methods.

Artisan - May 7, 2020, 9:20 am

Didnt mean to sales trash. I checked up on some of the disputes and saw a discrepancy between the 4% rate posted in your thread and the 20% on the disputes. So does this new method provide the 4% rates? If not then please change it to the real number. That way you dont give people scope to trash talk and get better sales.

I was surprised myself and I was able to confirm at the time that the rate sometimes got worse. I posted a fix but the customer never got back to me and ignored all my messages.

I'll update the rate to reflect the fact it's slightly less if you use PP, but it's otherwise correct.

Nob - May 8, 2020, 10:00 am

I have updated the sales thread and added a new version for PayPal as some people could be facing issues with the last one.

SIM-3601851 - September 25, 2020, 1:28 pm

Does it happen automatically? Or do you have to wait for someone to send you BTC?

NSA - September 25, 2020, 9:26 pm

Does it accept direct CC payments without verification?

Does it release BTC automatically after payment?

HELLO DUDE, CAN YOU PM ME THE GUY WITH METHOD OF CC to BTC, I NEED HIS DISCORD

Nob - September 30, 2020, 6:55 am

To sum up the answers to some of the questions that were asked on the thread :

- The cryptos are sent instantly after the payment is completed
- There is still a fraud detection system : if you pay with a stolen CC, don't expect the transaction to complete
- There are 3 methods. Most of them have a rate of around 0.9. They work with credit cards and PayPals from most countries.

Nob - October 3, 2020, 3:58 am

This is still up for sale for 15\$. If you have instant credit card transactions on your bank statement, I've got another method for you guys !

PCM69 - October 3, 2020, 4:03 am

What do you mean by instant credit card transactions on your bank statement ?

And if I pay with Paypal, are the BTC sent immediatly ? I bought your previous method but didn't end up working if I recall right.

Were you from the US ? The one I was selling earlier didn't work. Let me know my PM what method I sent you.

DEAL WITH CAUTION DEAL WITH CAUTION DEAL WITH CAUTION DEAL WITH CAUTION
DEAL WITH CAUTION DEAL WITH CAUTION

Seller blocked me after I sent him the money for this payment, he is also very fishy and probably all his method doesn't work.

I will update and check if I get a refund or he exit scams dont deal with him for now, scam report is being opened.

OTHERS HAVE REPORTED HE MIGHT BE EXIT SCAMMING TOO, PREVENT ANY DEALS
WITH HIM FOR NOW UNTIL HE GETS BANNED OR REFUNDS THIS PAYMENT.
