Thread: [Paying survey App with 4\\$ minimum withdrawal \(PayPal\)](#)

SIM-3587630 - May 4, 2020, 10:15 am

No BS "Earn 50/100/500\$", I have been using this app for a couple months and I've got 4 payouts so far, 14\$ in total doing surveys whenever I had free time and saw the "survey available" notification on my phone. Minimum to withdraw via PayPal is 300 credits (3\$) and once you request it, it's automatic and you get the money in 2 seconds. If you check the app daily you can make way more money than my lazy ass to be fair.

If I'm not wrong app is available in EU only, but I can send you the link to try anyway.
PM me to receive the link, I'll give you a few tips to get more surveys as possible.

Is Paypal the only payout method?

You can withdraw Ethereum but minimum is 11\$, and Bitcoin's minimum is just stupidly high.
I just go with PayPal because it has a minimum of like 3.50\$ and the payout is instant.
