Thread: [Started Ewhoring again after 5 years](#)

xPlutus - May 4, 2020, 4:49 pm

So I just wanted to share my results after being out of the ewhoring scene since Dec 2014

The first payment was yesterday (May 4th) 20 mins after setting up everything which took me about 15 mins:

Second screenshot is from another guy from may 5th (1 hour ago) which was €100:

Double dipped him 5 mins afterwards but the email had an delay:

Pretty satisfied with the results so far but I'm far from being proud of the bussinesmodel thus won't be doing this for a long time. I'm focussing on my dropshipping store so I hope I can soon make another thread on that?

EDIT: This morning I came with a brilliant excuse and asked if I could "borrow" €90 from him so he sends me this:

And another one from another sugard:

And another one from the same guy:

Thank you

Yea I noticed that too. I did buy an ebook on here to just refresh my memory but just gotta find the right formula.

Made another €200 from the last guy from yesterday before I went to sleep lol

Well 2 out of the 3 just wanted to talk to me. Even when I offered like 75 pics and a few vids they only wanted 3-4 pics to see how I look like.

I'm trying to milk the last guy for another €1000 but I'll have to come up with a real good excuse lol

I totally understand what you mean bro. I'm currently not looking for relationships. First I wan't to get my shit together.

I think I'm doing this for another 2-3 weeks and then I'm out?

Killing the game. A quick honest question, do you ever feel bad after doing e-whoring? Or is it just normal.

At the end of the game idc to be honest it's a sacrifice for my upcoming business. I lost my job so I got no income and I need money to run my ads. Will probably stop after a few days from now cuz I don't think it's good to do this for a long time.

Find yourself a good method and start reading books about social engineering.

I've read "social engineering The art of human hacking" ~ by Christopher Hadnagy. It's a little outdated but it helped me alot when I just started.

you should mention it was from my ebook :D??

how dare you!! ???

Im happy to see you be success my brotha

Mourn - May 13, 2020, 8:29 pm

Yea I tried it all, from ewhoring with a private model, trading on paxful, and also tried multiple HF methods that people claim "make x in a month".. none of that worked.

Now im banking off Blackhat methods but hey im proud you can make ewhoring work!

If I wasn't making 20-40k a month off this I'd probably try ewhoring again or go back to tryna find a method on HF lol..

But yeah hope to see you come up like me, on this path your time will come :)

Just a suggestion cuz I do it with this, once you make enough money invest it into other legal sources of income because having legal money is the best, since you don't gotta worry about being "looked at".. I invest the majority of my money into Crypto, and some into stocks/forex. Sooner or later I plan on opening a dropshipping business but you'd need a lot of capital and would need to have a lot of knowledge in that area.

Anyways I'm not here to brag or any of that but its good to see someone making something I thought never would work again profit big.

:blackhat:

i might hop back in for a few works or a month myself.

I'm not looking to get 20-40k a month with blackhat and then invest it into legal businesses. I'm looking to get approx 4k and I'm out. I already started my business it's already done for about 95% only need the investment.

You don't need alot of capital to run a dropshipping store. I'm not sure what you mean with alot. Knowledge is true but I've done 2 different courses. Low ticket and high ticket and the value is insane.

well damn i thought you'd need a lot for dropshipping, both knowledge and money wise. Also for ewhoring, you don't get any time wasters??

Budget for dropshipping totally depends on how big you want to go, for me I need approx 2.5 to 3k to start without any issues and with some backup money. Knowledge is key as always.

I got my own way of feeding them out. Since I don't target younger people I've only received 1 dickpic so far ?

I been tried everything and finally got into what im doing after testing every method out there.

When I ewhored i made maybe a max of \$200-300 a week, and constantly got people who begged for teasers or w.e, then would block me after.. or as i said weebz sending dick pics

the only thing i hate about what im doing is its high risk, high reward, hence why i gotta stay lowkey af & play my cards right.

if i figured out ewhoring I would have probably never moved on.. but aye as long as its doin good for u you str8 cuz you cant get locked up for ewhoring..

Currently using [BRAND NAME REMOVED] yea, also some other traffic sites but I my pack isn't really snapchat orientated however it's advertised that it is. English isn't my native language so the grammar is a little off lol.

First of all I really don't give a fuck about your opinion & thank you for the -5 I really appreciate it.

Secondly. I don't talk dirty with old men. I don't know were you get that from. Like I stated in a few earlier posts. They send me money to talk to them. I don't do dirty talk since that doesn't bring me money. Don't start posting Clay Davis about me when you don't know shit about how I handle my things.
