Thread: [E-Whore Success Story \(I started 6 DAYS AGO!\)](#)

Guys so since Corona I lost my part time job I was pretty much f*****, I started looking around hack forums and other forums for methods to make money not truly believing that I would make anything but then I realised E-Whoring had a huge section on another forum and found a pack. I read a lot of posts and saw what people were doing so I did the same but then I added a little twist to it that I thought could work.

In just 3-4 days I've made £320 in Amazon Gift cards, and £180 in Cashapp, it was NOT easy. I think I lost like 5% more vision in my eyes from being on my phone 20 hours a day, when I made my first £10, I couldn't sleep. I genuinely slept 3-4 hours, but soon I was amazed that I was making more in a day on my phone than my real job from before Covid.

The first 3 days I made £10, £15, then £12 yet and I kept pushing forward then on the fourth day I made £100 from just 2 guys. After that I made £100+ everyday up till yesterday.

Now I'm taking it back and earning less on purpose because I was starting to lose it, though I expect I can earn the same amount with less work as I grow my accounts, customers and social proof. Today I worked 2 hours spread through the day and made £20 because I was burnt out and needed to regain control. I'm going to regulate my hours and make a more consistent income now.

My biggest piece of advice is to take some of the posts you read on forums and tutorials then THINK OF WAYS TO IMPROVE IT/MAKE IT YOUR OWN. Just using the method exactly how it's posted will not work in the long-term since it'll become saturated very quick.

I made this post just to motivate people who are feeling down, even if E-Whoring isn't your method, there is something out there and it's 100% possible to make money online somehow if you believe, look and work hard enough.

I think I'm too new to PM people, anyway sorry but I wouldn't just tell you buddy. Competition would kinda cause me issues.

Yeah looking to find a way to get past the ID verification for onlyfans, definitely in my plans though.

Now you say that you improved the method with a twist.

You want to give back to community

yet when a brother asks you say you don't want competition ? where is all that twist improving first place ?

I don't know man, I understand not sharing certain methods to keep them unsaturated.

But I don't understand what you are trying to do here. Bragging ?

Drop the greed man, ain't gonna make you a better person, and if you are not becoming a better person it is not worth the money.

Just my 0.02 I hope I don't upset you :)

No it's in the title, it's a success story.

It's to show that methods like E-Whoring, dropshipping etc. aren't too saturated to make money and that you should start if it's something you want to do.

The way I do it is too specific to give out, it involves the platforms I use as well as the technique I can't give out that information because it would over saturate them and I'd have to start again to think of something.

Ouch, somebody is upset here

blackke - May 5, 2020, 9:47 pm

I am upset, but definitely not on OP.

I am glad when I see people having success. It's the way it should be.
But making money do not mean success.
