Finally. I've waited so long but finally, we have a SW herb grinder. Christmas came early.

Dorrance - May 6, 2020, 5:40 am

Star Wars pendent chain would be cool.

I need something for my boy Darth Maul.

Do you smoke weed Omni?

It looks like a good grinder. Having a loose mesh filter can be annoying tho!

I didn't know that, but I'm wondering the same!

I thought he was the Whiskey lover and Xerotic was the herb smoker of the admins?
I have no clue about Eagle 95, but regardless of who is 'what' I think the grinder is cool. As a non-Star Wars fan.

Why not be a whiskey lover and a herb smoker?

TBH by the print quality it doesn't look like an actual product (its too HQ) so its probably just a generic POD product.

It is a nice idea tho, to combine stoner items with gaming titles in a POD model. i'm quite sure it was done before many times tho.

P.S - POD = print on demand. i feel dumb explaining it, but will look even dumber if no one gets it.
