Thread: [Bubble Kush And His Fake Earning Proofs](#)

BubbleKush - May 5, 2020, 12:18 pm

Yes idiots, trust newbies more but don't trust reputable users...

What's the point of this?

Luca - May 5, 2020, 12:22 pm

Not sure about your point with reputable members.

Why couldn't you just respond to the thread, instead of spreading drama?

Some ban evading scammer said that I use inspect element for my proofs. I told everyone I don't mind making video for it but Omniscient banned him and now they all are trying to make them forgive them even tho they threw shit over me few minutes ago

I don't recall anyone saying you're a "reputable user" tho?

Anyways, are these all proof of funds from using THE methods you're selling?

Nope, unlike all other sellers that use their earnings from selling their methods and then put them as an earning proof - I use Exodus wallet for all my methods sales (which can be verified by the contracts). Enough said ?

Thread got closed because Omni didn't give a fuck about his group member spreading fake proof to up sales but instead decided to ban the kid who actually shared the proof. Even if OP of the other thread was an evading multi, the proof was still as valid as ever. brb gonna go fake some proof so I can scam kids

Dorrance - May 5, 2020, 12:24 pm

Reputable member that's fun stuff.

Big time lapse in earnings I see a few days without nothing.

BubbleKush - May 5, 2020, 12:26 pm

Yeah but you all speak a lot here but once I ask someone to come and get in a call with me so he can verify that this is real people step away. Maybe you like drama a lot

Just let this go... No need for extra drama. He's closed.

Btw you 'proof' doesn't count.

The fact is I can bring hundreds of people that are doing smooth business with me to vouch for me. And what do you consider trusted? Someone farming his b-rating from selling bytes ? As I'm making lots of sales for my methods which are priced decent, none of my buyers complain (because they see it's real) but some morons like you that nothing to do with it tend to judge me ?

Who are you pleb ?

Off-site transactions and vouches don't count homie.

So? I mean if someone replies as severely as you onto an accusation you try to convince me isn't true, I am not going to believe you. If it wasn't correct, you wouldn't have lashed out so severely. ?
