Thread: [Which superpower do you want to have, and why?](#)

Exalted - May 5, 2020, 1:18 pm

My choice would be teleportation; it would make life soo much more relaxed. You could practically do anything you want—live life like a truly free man.

Do remember that with great power comes great responsibility.

What would your superpower be?

RIP Juice WRLD - May 5, 2020, 1:23 pm

Not being able to die for 1000 years.

Would be a great way to survive throughout my depression, but also long enough to see what you want.

However, I don't want to live forever, I think, so that's why I "only" chose 1000.

Toosii - May 5, 2020, 1:25 pm

Invisibility, idk why I guess I could do what I wanted.

Pow3r - May 5, 2020, 1:25 pm

The ability to stop people rage crying or low key threatening when you kill their HUM. That would be awesome.

Smexy - May 5, 2020, 1:26 pm

Ability to control minds, yet not read them.

I don't think I would wanna live even for 1000 years, making friends and than seeing them pass away and rinse and repeat I don't think I could do that for that long.

Yeah, that's true - if I could live for a 1000 years I'd have made a helluva lot of money from compound interest though, so I could probably afford to pay some scientists to make my friends and I live forever. Idk.

Able to be invisible. I would go straight to any bank and get all the cash and gold bars possible.

Depends how super speed we are talking. The concept of flying is definitely for freedom and not to mention the mere ability to be noticed. Check out invisible man (new movie) for more modern invisible evil ways (not that I would use it for evil)

Making other people happy and curing their depression. I know how much it sucks, so helping others would relieve some of the pain.

I would love 2 superpowers as a super combo. One is immortality/revival and another is time travel.

I want those as I could go back and move forward time to get the most of what anyone could imagine from life.

I would especially like to see my loved ones as much as I can and right the wrongs I did to them.

4dik - May 5, 2020, 4:37 pm

Other than that I really would want mind control as a superpower tbh.
