Hello :)

IMPORTANT:

This will only work for people in the countries:

The United Kingdom,
France,
Germany,
Switzerland,
Austria,
The Netherlands

Method:

Okay so here's the method. A trading app / website called trading212 is currently hosting the best referral program in the world, if someone signs up from your link and makes a minimum deposit you BOTH get 1 free stock which is worth up-to 100 of your primary currency. Both me and you will receive the exact same stock item which we can then do whatever we want with.

Sign up with my referral link [Ref Link](#) and we'll both gain a stock worth upto 100 USD/GBP/EURO (we receive the exact same one, I don't get any additional benefits).

You can then invite upto 20 people yourself where you both will also receive a stock valued at upto 100.

You can either hold the stocks or sell them and withdraw your money, inducing the \$1 you initially put in.

Steps:

Sign up at: <http://www.trading212.com/invite/Ffp7X1Ud> I did this via iOS (it opens the app store) although I believe you can also do it directly via their website.

Create your account, make sure you choose an ISA / INVEST account or the referral will not work. I recommend ISA as it's completely tax free & you do not need to pay to trade at all.

Deposit some money, According to their site the minimum deposit is \$1

Wait, it can take anywhere from 30 minutes to 12 hours for your stock to arrive, my first one took a little over 30 hours.
