Well, hey everyone.

This is my very first vouch review on HF.

A bit about myself: Ive recently been made redundant due to the pandemic. As you can understand I have been looking for ways to make money on HF. With four kids I needed something where I can focus on them with as little time spent as possible.

Heres my review:

The concept and the idea is brilliant. It fits with spending around 10-30mins if you follow the audiobook daily. Ellison was very helpful in answering all my questions. Believe me this is something new to me. So when he explained everything, I was stunned as to how its possible someone can make money this way. But hey! Its possible! With little bit of time and setting up you will be making your money. I wont give away the details.

So if your looking for a side income and with less time as possible – I would recommend this. Just follow through with the instructions. I will be testing over the course of month and will report back.

Personally I heard about that before but never try and with things which you get in pack you are ready to start with 0\$ investment.

Method is really for lazy people, you can do that in toilet, in bus, everywhere :D

Usually I don't say that but if you are low on cash and have a lot of free time buy this method and make some \$\$\$

There is nothing illegal in method so you will be fine.

It's easy to understand everything and in few hour you are ready to go.

Huge vouch for this ;)

First of all, i would like to start off by saying that the fact that this is an audiobook and not an e-Book makes everything 100 times easier to understand, and guess what the best part is? You can be lazy

and NOT read.

OP explains everything clearly and step by step, so you find no issues when trying to follow the method. Also he replies really fast and is a nice guy :)

The method itself it's not a get rich overnight method, but instead it's a stable way of getting daily income by just investing some of your free time, and if you invest some little money everything is autopilot!

For the price i would say the method is worth it, if you really get into it after purchase you will make your money back within the same day.

I personally vouch for the method & elision.

(May 6, 2020 05:42 PM)Wespa Wrote: [\[CITE\]](#) Wespa's Review.

I have received a vouch copy from OP, and this is my honest review on his method.

Please keep in mind that I fugging hate shitty ebooks and methods. I do not lie on my reviews.

Appeal:

This is not your average poorly written eBook about ewhoring or dropshipping or some other bullshit. OP actually provides a high quality audio recording in which he describes everything that you need for this method. The recording is not too long, he manages to fit all of the necessary information into a short period of time. Please keep in mind that that OP's voice is quite soothing, so don't close your eyes as you might fall asleep.

Method:

This is not some bullshit like reselling bitcoins on forums or dropshipping legos on ebay or chaturbate referrals.

The method is something that will work for you in the long run, there is no way for the method to be saturated as the internet basically needs to have the things that the method describes. Also, this method will not be outdated for a very very long time. This will work for many years to come.

Is the method worth the money:

If you start working with dedication on the method the same day of purchase, you are guaranteed to make your money back basically instantly. The demand of the product will never run out.

TLDR

The method cannot be saturated, it is worth the money and you will make your money back and profit on the first day if you have a small bit of dedication.

It is correct that you need no qualifications, and no special experience to carry out this method, you just need the time and drive to do so.

That being said everything that makes you money requires drive and time. Following the instructions in this audio book is bound to make a profit if your instructions are followed by the buyer. i will be testing the method myself, but the theory and methodology is all there. Good work @Elision BIG VOUCH for your content. Explained so concisely too, thank you and GLWS!

First of all, let me start off by saying that this isn't a method where you press a button and you start to earn hundreds of dollars a day.

This is more of a method, where you start to invest a little bit of time and you already start to earn right away.

In my opinion, you don't need any investment at all to start earning. However, if you want to automate it completely, you can invest a small amount of cash and the money will come in faster than you think.

Will this work forever?

Nothing lasts forever, but i don't expect it to stop working within the next 10 years. Our world would have to flip upside down for it to stop getting you money.

For who is this method?

It's for everyone. Literally. You want to put in work, spend no cash at all? It is for you. You are a lazy idiot like me? Invest a small amount and get some nice profit(s).

What makes OP differen than the others?

First of all, you will also get an audio ebook. For lazy people like me, you can listen to OP and close your eyes if you like.

But we want to earn money, so keep your eyes pealed and listen to OP!

Im gonna stop before ill reveal even more haha.

1. Do you have to be 18
2. Are any documents needed for any verification?
3. Do you have to attract traffic in some way? If so, can you purchase the traffic.

I would be happy if i can even ear \$30 a day fuck 100-150.

After going through the method OP provides as an audio, I can confirm that it can make you a lot of money.

It isn't a set and forget scheme, you actually have to put in some work for this to function, but the reward is truly worth it.

If you're looking to earn a decent amount of money using an original method, this is your eBook.

No ebay. Setup can be less than an hour + scale it up easy \$100+ or more.

TRNDSTR69 - May 20, 2020, 3:15 am

Hi sir. What does it means "scale it up easy 100\$" ? You will earn money right away or does it takes time to get ranked, or get reviews or anything like that? I'm interested if it involves fiverr/ebay/amazon arbitrage or anything like selling an online service.

It means you can increase your earnings, there is hardly any setup and you can get started right away. No getting ranked amazon etc.

Send me a PM if you have any other queries.

Method is really for lazy people, you can do that in toilet, in bus, everywhere :D

Well, hey everyone.

This is my very first vouch review on HF.

A bit about myself: Ive recently been made redundant due to the pandemic. As you can understand

I have been looking for ways to make money on HF. With four kids I needed something where I can focus on them with as little time spent as possible.

Heres my review:

The concept and the idea is brilliant. It fits with spending around 10-30mins if you follow the audiobook daily. Ellison was very helpful in answering all my questions. Believe me this is something new to me. So when he explained everything, I was stunned as to how its possible someone can make money this way. But hey! Its possible! With little bit of time and setting up you will be making your money. I wont give away the details.

So if your looking for a side income and with less time as possible – I would recommend this. Just follow through with the instructions. I will be testing over the course of month and will report back.

(May 6, 2020 05:59 PM)3xiled Wrote: [\[CITE\]](#) Hello, i got a vouch copy and here is my honest review of the method:

First of all, i would like to start off by saying that the fact that this is an audiobook and not an e-Book makes everything 100 times easier to understand, and guess what the best part is? You can be lazy and NOT read.

OP explains everything clearly and step by step, so you find no issues when trying to follow the method. Also he replies really fast and is a nice guy :)

The method itself it's not a get rich overnight method, but instead it's a stable way of getting daily income by just investing some of your free time, and if you invest some little money everything is autopilot!

For the price i would say the method is worth it, if you really get into it after purchase you will make your money back within the same day.

I personally vouch for the method & elision.

(May 6, 2020 05:42 PM)Wespa Wrote: [\[CITE\]](#) Wespa's Review.

I have received a vouch copy from OP, and this is my honest review on his method.

Please keep in mind that I fugging hate shitty ebooks and methods. I do not lie on my reviews.

Appeal:

This is not your average poorly written eBook about ewhoring or dropshipping or some other bullsnap. OP actually provides a high quality audio recording in which he describes everything that you need for this method. The recording is not too long, he manages to fit all of the necessary information into a short period of time. Please keep in mind that that OP's voice is quite soothing, so don't close your eyes as you might fall asleep.

Method:

This is not some bullsnap like reselling bitcoins on forums or dropshipping legos on ebay or chaturbate referrals.

The method is something that will work for you in the long run, there is no way for the method to be saturated as the internet basically needs to have the things that the method describes. Also, this method will not be outdated for a very very long time. This will work for many years to come.

Is the method worth the money:

If you start working with dedication on the method the same day of purchase, you are guaranteed to

make your money back basically instantly. The demand of the product will never run out.

TLDR

The method cannot be saturated, it is worth the money and you will make your money back and profit on the first day if you have a small bit of dedication.

These are some vouches, many other vouches on the thread.

Review: It is not exactly newbie friendly, setting up takes a long time to do and you have to be accepted by a 3rd party so to speak. Many of the options are not available outside the US so if you're outside the US options will be limited.

It is however possible to make good money from this if you are willing to learn quite and bit and put the time into it.

Vulkaan - May 29, 2020, 2:05 pm

TO ANYONE WONDERING WHY THERE WAS A DISPUTE:

I made it, I am new to HF, I did not know what I was doing,
Elision is a really nice, patient dude, the method is great and I recommend.
I had a question and I clicked dispute because I was getting impatient; that's all.

I want to buy, but this concerns me

(May 29, 2020 08:49 AM)BigOlPipeline Wrote: [\[CITE\]](#) Review: It is not exactly newbie friendly, setting up takes a long time to do and you have to be accepted by a 3rd party so to speak. Many of the options are not available outside the US so if you're outside the US options will be limited.

It is however possible to make good money from this if you are willing to learn quite a bit and put the time into it.

And also the fact that there is a sick amount of brand new accounts with less than 10 posts buying left right and center, it looks really really wierd.

Can anyone say how much they are making from this and how much time they put in?

?-Elision- - June 5, 2020, 11:26 pm

Whatever is written is not true. It's worldwide and it works. Just because someone doesn't like it doesn't mean one should ignore tons of positive reviews. Good luck with your search.

hdhd - June 6, 2020, 12:17 am

I can see people saying its a nicely made audiobook, i dont see anyone comment on earnings at all or how much time they put in and so forth, which is what i am interested in knowing.

And again, the amount of brand new accounts, many joining the same day and buying this is crazy high which really spooks me :D

?-Elision- - June 6, 2020, 12:29 am

It's upto customers whether to come back and report earnings or experience or simply run away with the money they're making. It's a personal choice.

All good , have your suspicions. Goodluck with your search like I already said before!

I have purchased many methods and ebooks in the past, and almost all of them I have just wanted to stop reading in the middle of them and consider my money wasted. But I saw this thread come after just searching around and it looked pretty promising. So I went ahead and purchased the silver package. The seller was very quick in response and knows what they are talking about. After reading through what I had purchased and received within a matter of an hour or less. I felt very knowledgeable on the topic written in very little time. I cannot wait to take today to test out this method. I will be updating with my results. But so far I give a 10/10. It's just fantastic!

I bought the silver package and I can recommend it. You get very good quality audiobook, list of sites where you can use the system and a few bonus files with different methods. System is very simple and you don't need to invest any money if you don't want to. The only investment is your time and for now I would say it's worth it. If you're still hesitating, go and give it a try!

bokebeats - June 22, 2020, 5:07 am

It is an interesting but saturated method. Maybe it would work a few years ago. Right now gaining a reputation on those pages full of people from India giving away work is practically impossible to get a job and build a reputation. It is not a method to make money in a day since you start, it is a long-term method.

Is it blackhat or gray-ish?

TLJQ - June 24, 2020, 12:33 pm

Putting out this review for those who are skeptical about this ebook

Honest Personal Review:

- + Definitely a doable method that can rake in money as described
- + 100% whitehat method, doesnt involve reselling of goods and services or ewhoring and such.
- + Very easy to understand and execute the method.
- + Definitely newbie friendly, anyone can do this
- Not a fully autopilot moneymaking method
- Will have to spend a noticable amount of time daily to get the described earnings.
- Probably won't do it, just another waste of money for me

Overall, the method isn't 100% true as described in the post, it isn't fully autopilot, it is not like you can go ahead and netflix while money keeps coming in, you will definitely have to spend some time everyday to actually earn money using this method. I won't probably use it since i do not have the time to do all that.

Should you get it? Yes, sure if you have the time to spare to do this method DAILY. Working / studying right now? Probably, you can earn back your money you paid for this ebook over time by using up your free time.

Edit 1: Just read the bonus methods, and they aren't really 'methods'. I would call them strategies, still pretty good nonetheless

I received the guide in a timely manner. And while listening to the audiobook, and hearing what the method actually was about, I knew right then, that this method WILL work. If you actually do what he says to do, and you listen to how he says to do it, you'll make money. It will take you some time however to actually make a substantial amount of money, so don't expect to make \$500 in one day like the other guides on HF claim to make. This guide WILL work if you actually put in the work to do it.

I'm literally going to start on this tonight, and hopefully will make some type of income, just to prove to you guys that this actually works. After I post a picture of my earnings, I will screenshare with someone just to show you that it's legit.

10/10 on the guide my friend, thanks a lot!

do I have to sell something or talking to people?

Can u give me more details about your topic?

I don't have PayPal and my country doesn't allow it.

I use Payoneer, is this acceptable, if that ok I will interest to do this.

Best methode in Hackforum high quality

AnctientWarrior - August 2, 2020, 12:46 am

All right here is my honest review guys, it is not sale trashing just my honest review after purchasing this method and trying to make it work for the past 4 days.

DELIVERY:

The delivery was fast and smooth, got the product in under 6 hours.

Method:

Initially, after listening to the method (it has an audiobook which says exactly what is written in the guide) it seems legit and it will give you some hope, only to lose it after.

Firstly the method isn't very explicative. Just tells you his life story and how he succeeded in making lots of money using this method. Gives you a list of 50 sites and that's it, have fun trying to find which site is which. Which I did, I had to read each site guidelines only to find out that the method ain't as easy as OP says it is.

Firstly, most of those sites don't work at all as the op says, it's like he did not even check the sites, he just went to google typed "how to *****" found the sites that appeared after his search, and just copy/pasted them into the guide. After spending 24 hours reading those site's guidelines I have found out in fact that you can't do what the OP says you can.

Firstly, OP has 2 strategies. The first one a little bit hard will earn you money without having to invest a cent. Op says you can get money daily from those sites if you apply his strategy but that's not true at all. It takes about 1 to 8 weeks (found sites that takes 12 weeks too) to get verified and accepted, only then you will get the money. So yeah you can't get a daily income out of this.

The 2nd strategy is an autopilot method that requires an investment. Now if we listen to the OP story, you can get this done in a few days using strategy #1 which doesn't work. However, I did

invest about 80\$ in the autopilot, and guess what? It doesn't work either.

The way the OP tells his story/method sounds amazing. But it's a big beautiful lie.

SUPPORT:

I contacted him about 4 times on hackforums, he replied after 2 days telling me to add him on discord which I did. Had to wait another day, for him to accept the invitation. Another day of waiting and he did not reply to this day.

4 days have passed until now and no answer from him. Therefore non-existent support.

Final Thoughts:

I regret buying this method. I mean I know 20\$ ain't much but keep in mind I have also invested 80\$ for his autopilot method which is lost but that's my fault because I was beguiled by the method. Let's we don't talk about the wasted time which I regret way more than the money that I have lost.

OP please don't feel offended about this, as I said it's just my honest review, not a sale trashing or anything. That's the value your method has, zero.

Could put more work in the guide, make it an actual guide, and give the support you have promised. Could have raised the price and stick to your promises, had no problem paying 40\$ if this actually would have worked.

Also, before buying the method I have read every comment on this thread, and only 5 buyers had negative things to say (now 6 including me). Everyone just bought it and said nothing, that's pretty horrible, especially those that are giving this a positive review, are they paid or what lol.

Honestly, Ancientwarrior.

Just purchased my copy of this today from Elision. I will say at first glance it is a much different method than I even thought of or seen on here. That for my was honestly a good thing as it seems many methods here revolve around these little schemes and tricks, where as this method is way more stable and legit per say.... After going through it a few times firstly it is 100% possible for anyone to execute it as long as you have a brain and a little imagination to be able to scale. Which to be is important. Because I know alot of us here get guides and there is always a few twists or problems when we encounter a method where we ask ourselves if its even worth our time. Another reason I like this method is because I am going to try to scale it to a legit big business and try to get repeat customers which is important to me because i dont like doing business or moves that have a limit. Plus in terms of saturation I cannot see this ending anytime soon. As long as the internet is here this method will be alive we just have to slightly adapt im sure like everything. So overall 10/10. I will report back when I begin to earn and share those earnings. But this is my initial first take on his method. How it helps :)

Hello @Elision

1.) I'm a novice to online money making and I am still wondering if your method can make money for someone like me who is retarded and slow ?
2.) I hope it doesn't require any experience at all, sales, survey, clicking, marketing or signing up on any website that require KYC user verification ?
3.) I want to know if your method is still working as of today 26th August 2020 ?
4.) How fast can my lazy ass recover the money used to purchased this package ?

All the countless methods I bought online have failed me countless times already, so forgive me if I am very paranoid about paying for your product.

I anticipate honest answers from you.

Best Regards.

My review.

I think this product is worth it, but not exactly in the way it is described. It will take time and effort beyond 3 hours a day to make the kind of money described. Especially at first, you will need at least 8 hours to finish the work. Also you will need to be good with English grammar and proof-reading.

That said, I do think this method is good and the explanation of how to do it, and the tips and references, put you off to a good start. So I'm glad I bought it.

I want to buy this but I have no idea what it entails. Im a true newb. Can someone give me a broad idea of what im doing? All I know is Ill make money. I understand that. And I get it will take time to set it up. (If I make at least \$500 to buy the PS5 or Xbox Series X it will be worth it) I just want a idea of what im doing so I know what it is im getting myself into or buying. Is it something everyone can do or one of those things where tons of people are doing it and now it doesn't work anymore?? Feel free to PM me anytime 24/7

Lime Miner no longer works with Minergate?

I used this:

<https://github.com/NYAN-x-CAT/Lime-Miner/releases/download/v0.3.2/Lime.Miner.v0.3.2.exe.zip>

But I have no feedback on the minergate dashboard.

Can you recommend a well functioning Miner for me? or another solution? Thank you

Ok I'm going to try to keep this short, wow! I have bought many E-Books in my time. From guides on How to make your crush love you and how to become taller to guide telling you how to make money online or how to get social media famous, but this is the best guide I have ever bought! The methods can not get saturated and the PDF's are high quality. I like how it comes with a audio book too! Overall the E-Book works and comes with great service and support, i recommend buying it if you want to make money NOW!

Attention to people buying this. This forum has a lot of people that sell eBooks and Elision is just one of them. Many of these sellers target new users who aren't aware and they end up eating false promises. This method WILL make you money. It will also take a very long time as it requires a ton of effort. The name Lazy Newbie System does not match with the method. If you want more info, visit the following thread: <https://hackforums.net/showthread.php?pid=60308404#pid60308404>

Don't even bother with eBooks. They promise lies and while they WILL make you money, it'll take time and it's not worth the investment. If you really want money, a job would literally do better.

I received my copy, unfortunately the method requires experience in a very specific field, and the whole pdf just talks about how the method is amazing... without even trying to explain more about it. And the live PM support is a lie, the OP does not respond at all.

Hey mate! My order ID is d4c77d88-71a5-4416-9bf4-df0ce40aa3bf. I don't usually dip into my pockets for methods, but I was speaking with a couple of guys that made me interested about this one in particular.

Fingers crossed for nothing disappointing.

An update on my purchase, this is certainly a "method" to earn money that's well suited for our current environment, but this can absolutely be saturated and I'd argue already is. That being said, this is one review out of many so go with your gut. It's only \$19 so it's no big loss if it's not something up your alley.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Let's have a 'listen' as i read it's an audiobook!

wrangly - February 11, 2021, 5:49 pm

This seems really promising.

never got it sent to me please send. this is my 3 time contacting.

lucifer767 - February 21, 2021, 1:04 am

I guess this is a scam. He's not sending to anyone.

rsjn - February 23, 2021, 12:28 am

Guys calm down, i believe in OP, this isn't a scam just because you haven't received the book yet, he just hasn't been online in a while, he has a personal life too and if the method works then its worth the wait.

I am closing sales for the next 2 to 3 weeks. Lazy newbie system is not available for purchase anymore.

Ones that purchased have been sent the product already.

Anyone needing any support or having any other questions please send me a PM (not convo).
