It contains the most important information and advice for beginners. I think it is worth spending \$5 to protect yourself and your privacy.

I wish there was more since it was a fascinating read and some of the things were mind blowing. I really appreciate that OP makes recommendations, however for the price I would say it is worth it.

It is definitely worth \$5 and I suggest people buy this as you will not regret it.

Pros:

- Critical Info
- Direct hyperlinks
- Brief explanation on topic
- Recommendations by OP
- Fair value of \$5
- Guides you through the process; pretty up to date
- OP Answers your questions

Cons:

- Short; made me want to read more info/ techniques

Overall:

Highly recommend it! Would buy again.

Short but sweet! Very good for your first steps in being anonymous online, every tool / site needed to be visited is hyperlinked so the overall easy of use is amazing, This is more optimized for US citizens, but 90% is universal and the rest is mostly transferable. I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
