What's an old fashion or style of cloth that you wish it comes back now?

A + - May 6, 2020, 5:30 pm

I just recently got into camo. I needed some cargo pants and was tired of blue jeans. I'm digging them.

I really like oversized clothing

SaintJimmy - May 6, 2020, 7:56 pm

I personally love bell bottom pants no matter they made or make comeback. Also you can see many celebrities wearing bell-bottom pants. Plenty of online shops sell bell bottoms. When I was in Germany, I definitely saw a lot of bell bottoms and wide legged trousers.

Women who wear slim clothes. Please for the love of god, don't let vintage/wide clothes become a thing. It just looks ugly.

pms - May 7, 2020, 3:53 am

I really love hair metal, and the 70's/80's hair styles.

Cargo pants or shorts. I see people shitting on them all the time online but they're extremely useful, especially if you're working outside a lot like I am.

Super high up the ankles probably. Skinny to the point that you can clearly see their transexuality or widened butthole, for easy identification from potential new sexual partners

No hate towards gay people tho
