Thread: [4x \\$100 in VPS & \\$10 BTC || 5 Winners](#)

Tekkie - May 7, 2020, 9:42 am

In celebration of the new sales thread design and signature for Pulse Servers that reflects our upgraded infrastructure, I am doing a contest to give four people \$100 worth of server hosting (credit that never expires to be used how you wish) with our company and one person a \$10 BTC prize. As I'd like to place a few more awards on my profile, I have my sights set on the green apple. Sharing the love and leaving me some rep is most appreciated.

Prizes: 4 x \$100 credit with Pulse Servers with no expiration date
1 x \$10 BTC

Entry requirements: Make a post in order to enter this contest. You may post once every 24 hours. Your post number will be your entry number. Upgraded users only.

I'm working towards 1,000 for the green apple award, so I'd appreciate assistance in getting there but I do not require that you leave rep.

Multiply your entries! If you refer someone to this giveaway and they include your username in their post (not edited after the fact) and win, you will get the same prize as the winner (VPS only) for referring them.

Contest Begins: May 7, 2020

Contest Ends: May 17, 2020

The winner will be chosen with a random number roll. The 5 winning post counts will be named in the thread.

Winners have 24 hours to respond or I'll re-roll their prize to someone else.

Motusora - May 7, 2020, 9:48 am
