Thread: [Breached Data Search - I'll find your emails and passwords](#)

Ampere - May 10, 2020, 1:11 pm

Hey all,

I have access to a lot of breached databases and information, DBs that are harder to obtain, etc, etc. and I am happy to help in finding breached information for you.

You shouldnt have to pay for this type of search, so PM me if you would like a search performed.

I can search for information on the following:

Email Addresses (Partial and Full Matches)

Passwords

Phone Numbers

Domains

Addresses (If public)

Hashes

Let me know what you need, i'll find it for you! Billions of records available!
