Hello guys. Me and [SourceCode101](#) We consider ourselves to be professional e-whorers (supposing you can use this term for any e-whorer at all) averaging about 350-500\$ per day. We have been ewhoring for more than 5 years now. We are the leaders of the E-whoring group Succubus, the only certified group in Hackforums that's e-whoring related.

I have been getting a ton of messages from people asking my advice on how to e-whore so I figured I am going to provide you guys with some information free of charge. This community helped me grow and reach this level, so I feel I owe you in a way.

What kind of information can I ask you?

Literally anything.How to spot a timewaster?

Is it worth to e-whore in ...-> insert-example-here

Tips about social engineering.

Are premium packs worth it? Where can I find good packs? etc.

Having trouble with verifications? Ask for my help.

What kind of information should NOT ask you?

Specific traffic. I won't reply with exact information on where to e-whore specifically. However, we are willing to offer you general tips regarding that topic.

Economical fraud. I am not willing to help you create a fake account to receive payments to. It's against hackforums rules and we advise you to take your time and read [Help Docs](#) before using this site at all.

Blackmailing. Again, it's considered as blackhat activity and it's forbidden to be discussed on here.

Good luck to your endeavors.

these two questions bother me, with verification especially. I have bought recently "premium pack" here oh hf, and paper verify is old pic when girl was younger and sllim, but the most of other verify pics and regular nudes etc are "newish" and she aint that slim anymore.

So what would you guys suggest ? maybe get another pack or what would help to have easier verification with customer ?

Thanks in advance :D

Ofcourse

Always depends where you want to use it

Like Kik or Snap

For Kik you need a really good pack with many verifications

For snap

You just need a good pack and fake the camera, they are some sellers here who they sell how to fake the camera in snap

these two questions bother me, with verification especially. I have bought recently "premium pack" here oh hf, and paper verify is old pic when girl was younger and sllim, but the most of other verify pics and regular nudes etc are "newish" and she aint that slim anymore.

I dont suggest you to buy a pack with many nudes cause are useless if you can't use it
First you need a really good pack with same clothes etc so you can bypass their verification and then nudes

thanks for quick reply, at the moment only kik but il expend to snap

Yea i have figured that out now, i know a great seller with lots of verify pics and il prob buy that pack for kik now.

For snap good pack means lots of no nude pics (also nudes) no need for verify ? thats great than i have my goals set now.

I have express vpn on phone, also kik lynx, works great so far, il add snap next

ty for your aid

raserac - May 13, 2020, 7:13 am

(May 13, 2020 07:09 AM)!S0urceC0de! Wrote: [\[CITE\]](#) keep in mind some buyers they ask 2+ verifys, so take care to buy a pack with same clothes

Like 1finger-2finger etc

Also cause many ewhorers have scam them they will probably ask for some crazy verifys

Lik cross fingers etc

In snap some buyers they will ask for verify i suggest you if you cant do that to give them an excuse like

my snapchat story is already live what i have to proove etc

But ofcourse if you have the verify he will ask you you will sent it
well i always say if i dont have second verify that i do 1 live verify per customer cuz lots of time wasters.

(i know just the pack i need now)

Snap is new to me but i think my experience with kik will be of great assistance

Much appreciations for responds ?

The only way to do that my first is by proccess and failure. That's how we learn all things in this life. We need to start a proccess in order to fully configure and understand it. Theory alone won't do the trick. However, yeah, some tips and tricks from a veteran would be try to act like a real girl. Meaning, act like you don't care. Don't be needy for their money. They need you. You don't need them. That's the mindset.

Source's answer was appropriate to that problem. It all depends on your target customer, meaning, if your target is mainly snapchat, usually you don't need verifications that much. Usually, regarding snap, you need a pretty model.

Regarding kik, you need a lot of verifications. The more the better.

Regarding apps like skype or facebook, a vcw would be ideal, because the verification process takes place via call.

(May 13, 2020 08:16 AM)Aiha Wrote: [\[CITE\]](#) Hey, im new in this field and tryna get into it (i barely have any experience in this field). Do you guys have any sources where i can learn this stuff from beginning?. Thanks for your time reading this.

This subforum alone and the search feature, give you an endless amount of info. You can start here.

If you want somebody to guide you do that, you'd most likely have to pay for this kind of service.

If you want to start from scratch tho, without having to invest a dime, you can always use some sites like sextingforum for example, so you polish your SE skills and get a better understanding of what e-whoring really is.

(May 13, 2020 08:49 AM)Aedan_ Wrote: [\[CITE\]](#) Don't know if this has already been asked & answered, but what's your favorite app to use for this? Snap, Kik? You guys use Insta, Twitter, Chaturbate, OnlyFans, Omegle, Yubo, etc.?

We mostly use KIK and snapchat. Regarding snapchat tho, I am still on intermediate level, not an expert yet.

I have used Insta, twitter, Omegle and Yubo in the past. In order to succeed on Insta you'd have to be patient and build your business model brick by brick. Slowly but steadily. Same applies for twitter as well (most of the times that is).

Regarding omegle and Yubo, both of them are saturated way of traffic by now. So the traffic that you generate from these 2 are kind of low quality, but still manageable.

Chaturbate, I am not familiar with, I am sorry. I cannot help you regarding that one.

OnlyFans, is probably the best out of all. But it's tricky. Imma say, if you have a real girl go for it, or else don't go for it. As I previously mentioned on this thread, we won't help regarding blackhat methods like how to bypass an OnlyFans document verification.

We are not allowed to do so.

On Kik, do you just go into 18+ groupchats? Or are there other ways to bring buyers in?

In my opinion, group chats, sometimes can be effective indeed, but for the most part, it's an outdated way of bringing people and traffic in. It would be much more effective to use apps for that matter, or even sites similar to kikfriender etc

(May 13, 2020 05:51 PM)nigre Wrote: [\[CITE\]](#) Thoughts on using [BRAND NAME REMOVED] and just putting my snap name in the bio of the acct?

According to people using this method, it's the most effective way to bring HQ traffic to your snapchat. It would be better if you swiped a bit tho so you also get some matches and draw their attention to your bio. Men, tend to spam swipe a lot more than women do (well, duh, obviously).

(May 13, 2020 09:28 PM)Hansa Wrote: [\[CITE\]](#) How do I market when I bring in the traffic from [BRAND NAME REMOVED]? Do I straight away go into "I am running a premium snap, these are the prices" or take a slower route?

That really depends on what you are trying to achieve. For instance, do you have time to SE them? Answer their spammy questions etc?

If so, then , the possibility of making a sale if you are less direct than that is obviously higher. However, if you don't have time to handle the timewasters for whatever reason, your best bet would be to either be direct about it, or set up an automation method.

Remember, MOST men don't buy because they are horny.

Most men buy because they are lonely.

(May 13, 2020 10:59 PM)Kant Atta Wrote: [\[CITE\]](#) What's the best platform for automation?

If you are patient enough to build it up, hands down instagram.

If you are not patience enough then it would be Snapchat (obviously).

If you mean, "What's the best site for that?" , then my answer is OnlyFans.

It's the most widespear out of all other similar kind of sites and people tend to feel more secure when dealing with someone who is verified on that platform

You can download a program like ninjagram for instance and make it auto-follow pages of big and known camgirls or even better , OnlyFans girls.

You have to be active and patient tho. It is going to take more than 2 months of activity before you monetize it.

That depends on where do you get your traffic from. If you have a bunch of LQ traffic it would be best for you to be blunt and straight to the point. If you have some higher quality traffic tho you can try to SE them a bit before jumping straight it

If you mean what apps to use in general to monetize you can literally use any type of social media and chatting app at all. Instagram, Kik, Snapchat as well. You just do the obvious thing of creating a profile and monetizing it by bringing in traffic. Samea applies to all categories

Hello! Just starting ewhoring. I was wondering if I need to buy an extra phone because I have iOS and I don't want to jailbreak it. Is it possible to get payment without credit or debit card because I don't have one and I can't get one since it's lockdown all banks are close only ATM to withdraw and deposit. I have question on my "strategy" is it okay that I can hit you up with a conversation?

I understand most of it but I was wondering how the delivery works. If they agree to 15-20 pics, how do I send them? Email? Dropbox? Surely I'm not going to be sending that many individual pics through kik or sc etc.

Of course there are ways to get payment without any debit/credit card. You can get your payments

on paypal and then proceed to either withdraw them or exchange them via here for BTC or other crypto!

Now, if we're talking about NOT having a bank account as well, unfortunately, your best bet would be to indeed, get paid via cashapp/venmo/paypal/amazon giftcards etc. and then exchange them for Bitcoin and so on.

You can always hit me up for any type of question, I will get back at you as soon as I am available

- 1) At what ages is it better to attack to make sales easily ?
- 2) You recommend, facebook as a source of traffic to make sales ?
- 3) to which countries is it better to sell ?
- 4) It is better to use packages of older girls, model types or it is better to use young girls ?
- 5) You recommend being direct with customers, to avoid wasting time ?
- 6) At what price do you recommend selling the packages ?

- 6) At what price do you recommend selling the packages ?

First of all, I should let you know that all these questions, typically, don't have a simple Yes/No or Do this/Don't do that answer. The answer heavily depends on the variables and the situations. What I mean by that is, there is a ton of info that I cannot sum it all up in a simple post.

For starters let's define your platform and you'll notice that every time we change one of the variables the answer is going to be different.

Let me showcase what I mean by that.

IF you platform is FACEBOOK for instance, then my answer would be something like that:

1) When using facebook as your platform then it's best for you to target ages between 28-55 and you are going to need a VCW to ewhore on facebook. A pack isn't enough because most people on facebook tend to be more suspicious, comparing to other platforms.

2) I do actually yeah! Facebook is a platform with the most potential out of all. You just have to know where to look. Dating pages with singles 40 yo etc is probably going to be your best bet

3) In general avoid poor countries and 3rd world ones. Target mainly countries in the EU and the US. They tend to be more open in paying for services like that, reason for that being that they have more money (obviously)

4) Having an older model gives you more credibility than a younger ones. They both have advantages and disadvantages. With younger ones it's easier to make a sale but harder to milk a client for more. On the other hand having a more mature model establishes a stronger bond of trust from the get-go. My personal opinion would be to go with more mature ones.

5) That is probably one of the FEW questions that can be answered with a YES or NO. YES. ALWAYS, be direct. DON'T waste your time with timewasters. Always be direct, if someone is not interested tell him to fuck off and move on.

6) Regarding facebook as I said it's better to have a VCW, because, as I previously mentioned, usually, people use videocall for their verification. Having said that, that means that you are better of providing cam2cam services. 25 \$ for a small show of 5 minutes or 50\$ for a show of 10+ minutes. After that you transition them to a meetup, so you can milk them for way more than that.

Now, let's say that your platform is SNAPCHAT

1) 22+ . Don't even bother answering to someone who is not 22+

3) UK and US. Dubai would be a good traffic source as well, if you know how to SE them resulting in a meetup as I said.

4) Younger models FOR SURE. Snapchat users mainly look for a quick jack-off. They want to see someone young. Someone who looks their absolute best. Refrain from using mature models for that matter.

5) Never, and I stress that, NEVER EVER waste your time. Always be direct. We care more about the FLOW rather than money.

Traffic flow is ALWAYS more important than money. If you have flow you have money. BUT if you have money it's not necessary that you have flow.

ALWAYS be direct.

I really hope my answer helped you clear out some of your confusion regarding that matter. If you still have more questions. Feel free to ask me.

That's just a SPECULATION. NEVER walk a path THAT dangerous for some extra dollars. Remember, if you go to jail, you won't get any anyway. Just my humble opinion

Putting money in this is NOT mandatory. It's optimal . You put money in aspiring for the money to get you some extra profits.

Your best investestment for starters would be to buy the ideal pack that you are looking for. Create your persona, find someone who fits your criteria. Invest and profit from that

While a VPN is NOT mandatory, I would advise you to use one anyway. Especially if you are using tacticts like blackmailing etc.

However, keep in mind, as I previously mentioned, this is a dangerous path. If you continuously walk a dangerous path, some time along the road, you are going to get caught. A vpn doesn't provide you FULL security. It's just lessens the statistical probability of you getting caught by 5%-10%.

That's all there is to it tho.

The "go-to" the last year or so is [BRAND NAME REMOVED] and then transition them to snapchat. This one seems to be working the best for everyone at the time being.

Personally I dont like it that much. Yeah, it is profitable for sure, but I'd rather do my own things instead of that.

Don't jump to conclusions like that "I'm not good at this?" if you haven't first tested it out for at least 2 months. Don't degrade yourself and dont let negative thought take over. Keep focused, keep calm. What do you use to bring traffic in? [BRAND NAME REMOVED]?

1) Use andy emulator to setup [BRAND NAME REMOVED] on emulator. That's the best emulator out of all.

2) Yes, you CAN use broswer but you are not OBLIGED to do so. You can either do it via broswer or emulator as well.

3) Do NOT use VPN with flagged ip's. Especially saturated vpns like N-o-r-d,express,ghost etc. What you need is Residential ipv4 proxies for that reason.

4) I'd say that the statistical probability of your account getting instantly shadowbanned if you're using N-o-r-d instead of residential IP's is tremendously higher.

Just so I put this into perspective...Think about this..

How many other people tried to do the same thing that you are trying to do. Create an account with [censored] that is.

Do you really think that [BRAND NAME REMOVED] wasn't going to take any measures against this? Of course they are going to get measures.

Never use saturated methods to solve an unsaturated problem.

Nope!! Never link your business account to get paid FOR her, because is things go off she can sue you for identity theft and economical fraud. Be careful. But on the other hand, if you let her get the money then is she not gonna do it on her own? The whole situation is kind of iffy.

I'm assuming you mean for [BRAND NAME REMOVED], so

Option A)

Get another device

Option B)

Create [BRAND NAME REMOVED] accounts from emulator

Optioc C)

Create them from a PC broswer

Don't really know how to quote your response to my question, the only fans one in particular

i feel like the reason she wouldn't do it on her on is because i pretty much manage everything and she likes it that way.

i manage the guys and getting traffic towards the snap chat and pushing them to the sale point but i

do see the legality reason

and want to do it 100% legally we have contracts written up by a 1st ammendment lawyer currently regarding social media management so i doubt id get hit with identity theft but in terms of her doing it on her own. she wouldnt be able to do it at the magnitude i do

eventually after she has a large following i could see that happening and her branching off without me but not at the scale that i can

thanks for the advice i guess ill talk it over with her and weigh out the pros and cons

Well, In terms of which app give bring you money the fastest, then for sure would be snap, or Kik. For me it's Kik. Kik has been better than snap since, like, forever...

BUT, in terms of quality and not quantity. I'd say that Instagram is for sure the best out of all. But you'd have to wait at least 6 months to monetize it.

Thanks, but my situation would require some looking into the details closely/personally, maybe even checking out the SC account from inside. I don't think it could help anyone if we'd try doing it here, or if it even would be technically possible. But I understand that helping me out in private is also a lot to ask for, so no worries if its not doable.

Who told you it's not good for privacy? You can just create a random amazon account and redeem the giftcard in there or just sell it online.

What's the problem with that?

Also, there are a ton of ways to be stealth, however, I cannot talk about them because I dont condone them and I don't want people to be using them

No worries brother. Okay so, GENERALLY, the BEST packs are the ones that have

1. A ton of teasing videos
2. A ton of actual content small videos.
3. A ton of actual content big videos.
4. A ton of teasing pics
5. A ton of content pics
6. A ton of verifications as well

What, I just showcased would be the ultimate e-whoring pack. Suitable for both kik and snapchat. However, these goldmines, are not easy to find as someone would expect. Any pack you may find is gonna be lacking in some of these categories.

Therefore, you lose something in order to gain something back.

For instance, if you want a kik pack, you should sacrifice 2 and 4 and 5 for the rest.

However, if you're looking for a snap pack, then you'd better to sacrifice 6,5,3 for the rest.

I hope my reply makes sense and I am not being overly confusing.

ALWAYS have the permission from the GIRL to use her pack and NEVER, ever provide services that you cannot actually offer!

If you meaning creating a completely private pack, that is indeed tricky. If you mean find your own packs, literally type in the search bar "packs" and comment to every thread possible to get the packs.

Depends. What do you mean by "you should"?

I mean, even if you pay 500 euro for a pack and you're making 100+ per day, then your investment is worth it,because you are going to make your money back in less than a week. Therefore, I don't like your question because it implies a toxic way of thinking regarding your business.

What you should be asking is, "what specification do I need to have for a Kik pack to be considered optimal?"

And the answer is, the bigger the pack and the more the verifications, the better. Don't be cheap when investing into something that is going to get you your money back instantly

ALWAYS have the permission from the GIRL to use her pack and NEVER, ever provide services that you cannot actually offer!

What sites are recommendable for rookies that are getting started at this?

Been running my e-whore business for a couple years and do fine when I put in the work. With that said I need more traffic to scale up.

You said that [BRAND NAME REMOVED] is profitable but it's not your cup of tea (understandable). My question is, is it hard to create a [BRAND NAME REMOVED] account and keep it active long enough to push some good traffic?

Most apps I have used want people to verify so I never bothered with [BRAND NAME REMOVED] assuming since they are the top dog, verification will be required but I could and most likely are wrong.

Thanks for your time.

1. Before proceeding to using instagram you HAVE to know that it's not like ANY other ewhoring ways to get money. It's good. It's very good, however, you have to be A) CONSISTENT and B) PATIENT

It's not like you can monetize it instantly, you have to be posting for at least 3 months constantly BEFORE you do monetize it indeed. Take that into consideration before doing this kind of transasition? Is it worth it?

If you have the time to do so, yeah, sure!

2. I can actually send you one

3. It's not bad. It's the standard route that everyone is using. However, if you ask me, personally, it's not good either. You are losing a very high percentage of your earnings, plus, gc can be easily chargebacked if you don't use them. Personally, I accept all ways of payment. Cashapp, venmo, paypal, amazon, bitcoin, hell, even fucking credit and debit as well via stripe.

4. If we're talking about snapchat yes, you have to use your phone for that.

5. Yeah, of course. Don't get carried away by greed. What I mean by that is AVOID blackmailing and scamming

That, again, is heavily depended on what you're trying to achieve. However, I'd say that a general rule you should almost always follow is: Try to not look like a scammer.

For instance, if you, right off the bat, tell them that you have a problem paying your rent etc., this sounds like a fake excuse just so you can get advantage of them.

Therefore, most of them are going to treat you like a scammer, whereas, if you be clear with them right away telling them to pay for your services you won't have a distrustful backlash.

Then, if someone pays and you notice that A) He has money and B) wants to spend them on you, you can proceed to tell them excuses like that, SE them so you milk them as much as possible.

ALWAYS have the permission from the GIRL to use her pack and NEVER, ever provide services that you cannot actually offer!

You have to find a normal working FB, with normal activity. Take it, change the pictures, and slowly start accepting friend invites, not more than 5-8 per hour or so for the first week. Then from the second week and on, you can answer even more and ever more as the time goes by, so you bypass facebook spambot.

Also, chatting for someone for a couple of days before asking for money is inconcistent and a waste of time. You are dedicating a LOT of your time to someone you are not sure that he is even going to pay. If you'd read my thread you'd that I am advocate of being direct. No wasting time at all

That heavily depends on if the app shadowbans you if you spam a specific word or not. I cannot tell with certainty if I dont know the app

That really depends on what you market on and the quantinty of the traffic. For instance, if you marketize on omegle for instance and have more than 1000+ adds per day, you physically cannot answer every single message, right?

Then you created the website for transition purposes. However, if you have like, 100 adds per day, no need to.

If the reason you want to do that if to add legitness to your girl, you would be better of creating an onlyfans account.

I just noticed I don't have the decryption key anymore, I'm sorry. You can use the search bar and type in ewhoring packs and you'll find plenty. A real girl is never necessary for this job. A nice addition? Sure. A mandatory one? Nope.

Also, as I previously answered, verifications are necessary depending on your platform. For instance, for facebook you need a VCW, for snapchat you don't need that many verifications, for you kik you do. It depends on your platform

And, what else would you consider necessary to pull this off? (I'm not talking about SE, but things that you may need to get started). Also, I saw you exchange BTC and Paypal, I assume it's because you are successful at ewhoring? :)

For sure you can do that, however you'd have to have a way to bring traffic into it first.

You say you prefer to be direct and go straight for the kill in order to avoid wasting your time.

How does that work? Don't you need to send in the hook to reel them in first?

Do you just say you need money or offer to sell them some extra content?

Thanks

" I am only here to sell, I figured that this is way better than wasting your and my time as well, my pricelist is this -Instert pricelist here- "

As I said I am not going to provide you guys with an exact traffic method. However, I can say that all kinds of forums is a good place to start. The more people the better.

I'd say, the main thing in order to succeed with [BRAND NAME REMOVED] is patience, selling premium and meetings, as well as pictures and videos.

Focus more on meetings obviously, this is where most of the payments come from usually. Regarding the shadowban issue, I wish I could help, however I cannot. To my knowledge and experience, up until now that is, there is no better way to treat a shadowban account other than letting it rest for a day or two, however, even then, the chances that is going to remain shadowbanned are pretty high.

So, in the end, my advice is , if your account gets shadowbanned, go for another account.

What's the current top methods to use? I haven't ewhored for 2 or 3 years and snapchat was big back then. Personally I never used it because I couldn't figure out anything other than the sticker method. Are there modded apps to get the job done? If yes, how are they called? I have a windows pc and a rooted HTC one m8, what would you suggest? Instagram was my best app back then but I get my accounts banned instantly nowadays. Thanks for any answer.

Currently, the most used out of all methods is [BRAND NAME REMOVED].

Fake live kik pics app: Lynx remix

Fake live snap pics/videos app: [spiral](#) is selling one and is awesome, more than enough.

Instagram obviously still works. The only thing you need is patience

Not necessarily. We cannot help you spot them with 100% accuracy. But I can tell you a couple of indications that are big red flags that someone is a time wasted. I'm assuming you're using kik/snap to sell videos and pics, right?

Do you exercise solely on selling online services such as pics/videos etc or do you offer meetups as well?

I am trying to gather up info before I give out my answer because it's not the same in all kind of approaches.

I usually offer only pics/vids , but if the guy wants a meet-up I accept . I have got some meet-up offers but none were serious , and I dont have much experience as i'm a begginer too . So to conclude my answer , i offer mainly pics and vids . Meet-ups are not in my list of prices.

And if you mentioned this ,should i include meet-ups in my price list ? If yes , what would be a good price for it ? I told the guys that asked me for the meet-up that they have to pay me the trip to them (about 50-100bucks as they said they are close to me) and the time i spend with them (about 50-150, depending on what they desire) . But , as i have mentioned earlier , no one ever got to pay me for a meet-up .

Do not include meet ups just yet, first you have to develop and polish the skill of getting to know who is timewaster and who is not. If you try to include meetups without doing that first all you will end up doing is wasting your time and getting no money.SO, a couple of red flags

A. A non-obedient person:

Having to repeat something a lot of times and they are trying to avoid your questions or your to manipulate you into doing something other than what you said you do. BIG RED FLAG

B. Big talk:

EX. "Imma give you more than what you're asking me to" . No he fucking want. No one wants to give you more money that the amount you're asking. Not even fucking rich people. BIG RED FLAG there as well

C. Asking for nudes:

"Yeah let me see one first and then I will <insert some stupid promise here>"

My answer to that is just a plain "fuck off". Sometimes I dont even reply, but these fools keep on spamming me so then I block them.

So, asking for nudes without him paying BIG RED FLAG as well.

These are some of the biggest indications and tells about who is being a timewaster and who is not.

Trouble with timewaster's

Basically some guy's will offer to pay then ghost last minute
I never give away the good's and only ever send a pic of the face
I avoid indian's like the plague

Some guy's will even say they will do it after work and then when i message them they ghost
Recently one guy showed himself to be a timewaster and then dipped

Now my question is
How the fuck do i get these people and spot them

I used to e-whore a few year's ago and it is really bad now especially on kik

Traffic source's suck and the guy's you do get you send them payment detail's and they ghost

I have so far gotten one guy to pay only one

Which bring's me to my next question

Quality traffic for kik i used to post on a couple website's during the year's 2015 - 2018 and literally get hundred's of guy's every hour now it is 3 - 5 guy's an hour it is super slow

I know that if i got the number's that i did back in the day it would be easy but really it is not anymore

When using Instagram as your traffic source, lets say you don't have your own girl, aren't you vulnerable to the girl (the girl you're using to ewhore) discovering you? Cuz if she's on any social media, She's definitely on Instagram. You get what I'm saying?

Least she can do is report you to instagram

Max she can do is report you to the police.

In both scenarios, You can avoid getting in trouble by having good protection against the online world. // Aka having a good opsec.

(This means do not link any of your in real life activity to your eWhore, such as banks, credit cards, real name, real address, etc etc)

"Can't be found" is a very optimistic statement. The IP's from VPN's are owned by companies. Companies that are required to cooperate with the law if they ever need to. Most of them have it on terms and conditions. So, even if you do so, as soon as they receive a prosecutorial intervention they are required to comply.

So i've been reading through this thread a bit, lots of good tips, but I was wondering if I could get a

push in the right direction for traffic sources?

No direct sites of course, just what I should look for. Currently I use Kik and Snap, I got a couple people from kik name sites but most were time wasters and then i got nothing after a couple hours.

No luck with [BRAND NAME REMOVED] so far, no matches or anything.
I also have yubo, plenty of people messaging me, none willing to buy though.

My only source that atleast gets people to message me seeming like they'll buy is Omegle, but obviously it's pretty bad. I have made a bit of money off of people from Omegle but it's hardly anything, and of course then the recaptcha basically prevents me from using it for 24 hours.

Thanks in advance for any tips.

Honestly, I am a big instagram fan because the platform as is, is so much more common to the average user, however, twitter is more NSFW friendly with less bans and a higher treshold in general for stuff like this one. So, you either pick High risk/ High reward -> Instagram, or Moderate risk/ Moderate to High reward: Twitter.

Personally, I'd go for twitter.

If you've sent a live snap already before they call you and they call as a verification process, you can say, "nothing else for free. I have sent you a live snap already. Don't call me again if you don't pay".

If they don't call as a verification process, then there is no need to even answer at all

Hey I had a few questions i would like to ask you.

I recently re-started ewhoring after a 2 year break and traffic isn't really a problem, my issue is with receiving payments. back then i would just use paypal for everything and everyone could do that, but it seems now a day everyone pays with cashapp.

When i make cashapp accounts i get the verification process after a few payments already, do you have any idea how i could make succesfull cashapp accounts? I already bought a verified paypal account to be able to accept payments there, but i would like to use cashapp as well if possible. And i am not located in the US but is it still possible to get myself a venmo account?

other than that i wanted to ask how you go about offering meetups.

Thanks in advance

Meet ups. Yeah. Are you using [BRAND NAME REMOVED] and getting your traffic to snapchat? If you notice, I always ask which platforms you're using first, because depending on the platform and traffic source, the approach varies.

Oh okay could you pm me then please and yes i am using [BRAND NAME REMOVED] as traffic and send it to my snapchat account.

Thank you for your effort helping us all out my man!

In what sense does the approach differ with traffic in below examples:

1:\ [BRAND NAME REMOVED] to Kik in comparison to

2:\ [BRAND NAME REMOVED] to Snapchat or

3:\ [BRAND NAME REMOVED] to Telegram, for example?

By reading everything here, I assume, that the default traffic for normies like me is from [BRAND NAME REMOVED], correct?

Thank you for the time you put into this thread, once again.

3: [BRAND NAME REMOVED] to telegram, awful. Don't even try this. Literally, don't even waste your time trying to pull off something like this. Telegram doesn't even have remotely the audience that the other 2 applications have. Snap/kik it's much more sex oriented related.

2: Of course. [BRAND NAME REMOVED] to snapchat is one of the most efficient ways out of all.

1: Kik is doable, but not preferable.

I could go into much more detail and depth than this however as I previously said I won't be able to help with exact traffic sources, especially [BRAND NAME REMOVED] since I'm selling a completely mentorship regarding this.

Default traffic...Let me tell you something regarding my experience on this topic. I have ewhored to every platform possible. Kik, snap, tumblr, facebook, omegle, chat sites, sugar daddy sites, literally everywhere.

I obviously knew that most of the guys here were using [BRAND NAME REMOVED] to ewhore. I didn't like it particularly, I had other traffic ewhoring sources. I used to work for 8-10 hours and make 100 to 150\$ which is practically nothing compared to the money I was used to getting. But I kept pushing and pushing until I finally learned a way to make more than 300\$ per 4 hours. It took months of trial and error tho, that's why the price is not low.

Have a good day and go get that bag!

You can purchase followers from literally any instagram boosting app there is in the appstore. Download a couple of them, compare prices and get your followers then. Also, ninjagram is the best one in my opinion. Instagram bot that is.

However, whatever bot you may try, you have avoid pushing your luck with it. Don't program it to follow more than 100+ people per day, cause then, instagram will block your ability to follow for days.

I would if they didn't care revealing their personal information. My first girl was argumentative. She didn't want to listen to my requests at all. She insisted on doing things her way. I complied. I don't see any point in constant arguing. Later on all of her nudes got leaked and we had to resort to the police to seize the outcome. She stopped soon after. Despite her not being cooperative at all we managed to get 27 subscribers within our first week, which is pretty good, really shows you what we could have achieved if she was willing to listen to me a bit more.

Second girl said she is willing to proceed. But this time I'm not going to make the same mistake. Partner up with someone immature that is. Therefore I have to test her out a bit before proceeding. I've presented her with her schedule and responsibilities. I'm awaiting her final answer. Should be soon enough.

All the others from then on were actually super nice! Not a problem at all!

Hey bro, you probably have answered this before. But how can I build more traffic on snapchat? I'm using addmesnap and some other apps but I don't get much traffic as I would like to. Just a few adds.

I know some people use [BRAND NAME REMOVED] to redirect traffic to snapchat but I don't really know how to do that. I usually get ban after some swipes and a lot of people start saying I'm fake. I can get lots of [BRAND NAME REMOVED] accounts because in my country sim cards are cheap but I don't know how to redirect them to my snapchat as a client.

Can you help me?

Thanks a lot!

This is the best alternative since all you can do is claim it and its secured.

After that just get items and sell it on e-bay or keep for yourself. It's better than breaking TOS on payment sites.

Amazon have specific TOS about scammed and stolen cards as well. It's illegal. Plus, even if the cards are not scammed and are obtained naturally, getting paid in amazon gift cards for a girl's videos or pictures that you portrait to be her, is illegal as well. It's called identify theft and you can be charged for that. Also, it's not secured. Cards can be chargebacked, especially if they are in physical form. Furthermore, buying stuff and selling them over is, not only impractical for those who live outside US because of the shipping taxes, but it's not even worth the hassle for the ones living inside the US. So, all in all, taking all these factors into consideration, allow me to keep my opinion that using amazon as your main payment way is wrong in every aspect AND ALWAYS have the permission from the GIRL to use her pack and NEVER, ever provide services that you cannot actually offer!

Snapchat is currently the best out of all, [BRAND NAME REMOVED] to be specific. In case you're interested I happen to be selling a mentorship regarding that but it is pricey.

If you're not interested you can always use forums etc. and sell pic bundles/videos, sexting, cam2cam and premium snapchat.

Regarding instagram, give me a bit of context. How many followers did you have when you first got banned? Did you upload nudes?

I am indeed interested in the [BRAND NAME REMOVED]/snap mentorship but right now the money is too tight. Not that you would have to care but I lost my job due to corona and now it's tough to find a new one. So I thought about getting back into ewhoring to at least earn some bucks to keep me fed (because ewhoring is the only thing I know to make a buck online). I have never tried Snap before but as I said I found ChickenCam and it seems to still work (even though I think it's been saturated) but I don't really understand how the premium thing works. Do I need 2 accounts, 1 to advertise the main premium acc and then post nudes to that story and only accept people who paid or how does it work?

I used insta about 2-4 years ago iirc with the findom niche. It worked quite well at the beginning, sure I burned through some accounts but nothing major. I did never upload nudes or sent nudes in DM, I simply stated that I was a findomme looking for paypigs. Whenever I had someone interested I made clear that he would need to pay upfront before receiving anything. I am not sure what I've done wrong, it didn't have many followers (<200). Let me know if you need to know more.

Have a great day

It's been a rough year buddy, stay strong and keep on going. You don't NEED it however it's advisable to keep all your clients in a separate account yes. Doing this you ensure that even if your main one gets banned you don't lose your clients.

Nope. While you can do that, the quicker you try to milk someone the more they are going to pay. I'd advise you to have them pay at paypal and then tell them they picked the wrong currency. Then if they ask for a refund, you can download a fix image from google telling them the refund is complete, a generic refund picture, then tell them to pay again.

If they do that, tell them the money got on hold and that you should refund the second payment as well, so they can send a 3rd one.

If you do this correctly 50% of them are going to double pay. 15% of them are going to triple pay.

However, if you don't feel like going in THAT hard and you wanna milk them again after a couple of days tell them that you released an "offer" of some short, for the next 24 hours, for clients only. Giving them 50%-65% discount on a custom video.

Normally, the price for the custom video would be 40 for 15 minutes. Tell them they can get 18\$ for 15 minutes only for this day.

If they do that, tell them the money got on hold and that you should refund the second payment as well, so they can send a 3rd one.

If you do this correctly 50% of them are going to double pay. 15% of them are going to triple pay.

However, if you don't feel like going in THAT hard and you wanna milk them again after a couple of days tell them that you released an "offer" of some short, for the next 24 hours, for clients only. Giving them 50%-65% discount on a custom video.

Normally, the price for the custom video would be 40 for 15 minutes. Tell them they can get 18\$ for 15 minutes only for this day.

so it's like double dipping them when milking? and if they get those custom videos and they send

the money , what do i do? do i block them since i don't have the videos. and would you also recommend cashapp for payment?

If you don't have them yes then unfortunately there is nothing more you can do, other than try to talk them into a meeting so they pay for your tickets. However, I wouldn't advise that, work less than 10% of the times. 90% you are just going to waste valuable time and get nothing back

Alright. Next time be careful who you pick. See their reviews if there are any and search their UID to see if they have previously scammed another member.

Also, be ready to pay heavy if you want to have results. It's absurd to think that you can pay 50-100\$ and make tons of money. Nobody will help you for pennies.

Having said that, I wish you luck in your future endeavors.

When in doubt, always go for residential proxies.

Hey there . Any advice on how to organize photos and vids for E-Whoring on Snapchat ?

Like , for example , how should i choose what to include in a set of vids I sell for 20\$ (out of all the vids I have) ?

Do you recommend including fetish packs in the price list ? (like 35\$ for foot-fetish vids instead of the normal 20\$ for vids of casually masturbating)

How should I decide what's better to be posted on stories and what's better to be sold ?

Should I make separate folders with these the photos and vids selections to make it easier to send them when someone is buying ?

Hope I made myself clear and you understand what I've asked you . I've read all pages of this thread and I wanna sincerely thank you for lending a helping hand .

Another quick question.

You've said that most people recommend [BRAND NAME REMOVED] as being the best for traffic , but it's not quite your type.

What other method for getting traffic are you using ? Are you using dating and snapchat usernames apps and sites , or are you using Instagram/Facebook ?

1) Organizing : Don't worry. Non important, it's the only thing that is literally insignificant. Choose the ones you deem to be hotter OR the biggest ones. They tend to appreciate quantity more than quality

2) Jacking up the prices for fetishes : Always. Good thinking. Always charge more for specific fetishes, I use to do that all the time

3) Stories/Selling correlation : Dont go FULL nude on your stories. Tease em. Tease em up real good and then sell your nudes. If they wanna see sum, they'd have to pay for it. Organizing them in folders is essential yeah.

4) Most people choose [BRAND NAME REMOVED] yup. I use to do ewhore in reddit couple months back. However, as I said, specific answers regarding traffic require payment.

I used to do facebook and instagram, way back in the day, currently I'm not doing any of them. They are fruitfull as well, if you have patience.

No worries brother, you're welcome!

What are good prices to sell pics for? I'm talking about snapchat. What "services" should I even offer on snap?

SecretAchiever101 - February 9, 2021, 5:03 pm

(Feb 9, 2021 04:38 PM)DorszGaming Wrote: [\[CITE\]](#) What are good prices to sell pics for? I'm talking about snapchat. What "services" should I even offer on snap?

Services: ?nything that you can think of , depending on whether or not you are planning on scamming the clients or actually delivering the content that you promised.

If you decide to provide them with every option and then scam them later on, you can sell custom videos, snap premium, live call, pre recorded videos, sexting, custom pics.

If you decide not to scam them, unfortunately your options are limited to snap premium, pics/videos , sexting.

Now, regarding pricing of pics, that's heavily dependent on the quantity of adds you're getting per day. Why so, you may ask.

Let me explain.

If you're getting 100 adds per day - a low amount of adds- then you'd have to enduce a big percentage of engagement between your clients and yourself, therefore your prices should be lower. EX: 2\$ per pic.

If you're getting more adds than you can handle and dont have time to waste talking on timewasters or hesitant and broke people, go for a higher prices at 15/20\$ for 10 nude pics.

All in all, having low prices enduces better engagement with your clients, so it helps hesitant and/or broke people to interact with you and make a small purchase without the fear of getting scammed. This is going to establish a better trust between the client and yourself, boosting the chances of making a bigger sale to them later on. However, if you dont have time to devote yourself to striking small deals to establish trust , because of the volume of the adds you're getting, then aim for higher prices -15/20\$ per 10 pics- so you "scrub off" most of the timewasters and be left with the serious clients only.

?s she willing to do fake meetups? I mean, her face would be out there scamming people. If you also use her real information to receive the money to that would be quite dangerous.

As I said I cannot answer question for traffic specificaly, as I am selling a mentorship regarding this, but buying [BRAND NAME REMOVED] traffic is a very good start.

You can either purchase mentorship/methods on how to do it on your own, but be careful who you trust. Always ask for proof of funds, preferably live.

Now besides that, when you indeed purchase the traffic. Upload 4 stories each day. One teasing her lower body. One teasing her upper one. One talking saying the date and one talking about her services/packages etc.

Worry not. You are going to do just fine and you will be able to make money doing that.

Yes for fake meetups, she's French and I'm ewhoring in America to avoid her getting into trouble, I have a cashapp account to protect her.

I guess I just need the traffic yeah, will look for services here or elsewhere, thanks.

What is the best way to know a pack is worth it especially if you buy one? I'd rather not purchase a pack and find a free one (which is inherently difficult) for Snapchat. The hardest part is finding clothed pics from a girl who isn't using a phone from 8 years ago to send on snap for verification purposes and random please snap me people.

?hanks a lot brother. I appreciate the kind words.

First of all, I am not aware regarding this specific issue with lynx remix. As far as I am concerned it was working fine couple months ago. You should maybe try to delete your instance, create a new one and then re-download it and install it. Also, create a new kik profile so you can send live pics to yourself to test it out.

My advice is heavily dependent on what type of traffic you're getting. Do you target audience for meetups? Do you target audience snapchat premium/virtual services?

General advice would be to obviously set your snapchat settings so that everyone can see your stories,yeah.

Nope you are not dumb. I am dumb for not specifying. I am sorry about that. I'm assuming you're using bluestack emulator. You can open multiple instances through bluestacks. What I am saying is, completely delete the instance you're currently using and then create a new one and download lynxremix to it.

Before I reach the point of making 300\$,400,600\$ per day, I had to face MULTIPLE failures. Me and sourcecode as well. There were days that we made literally no money at all. But despite all that we kept on pushing until we made it happen. Unfortunately, there is no special recipe to success. If someone says different, they are lying and they most likely want to sell you something, don't fall for it. The one and only key to success is patience, trial and error. That's all there is to it.

(posting here because ya asked me to)

Me and my girlfriend are exhibitionists, and are looking to make a profit for ourselves to help us make ends meet, we'd like to start selling packages and custom made orders on HF but have no idea where to really start with that. On both an e-whoring level and a general HF marketplace level, I've never actually sold anything on HF despite being here / lurking for almost 8 years. Are there any general tips / starter advice for both e-whoring and HF package selling? Are there any other similar services here on HF?

Sorry for making you post to the wrong thread. I sent you a wrong link.

Well...where to start...First of all, unfortunately I cannot advertise competing sites. However, you could really use reddit for that kind of stuff. As I said tho, I cannot be completely direct with traffic.

Now regarding HF....Uhm...Have you really thought this through, you and your girl?

Do you really want to expose yourself to a marketplace that big and that corrupt?

What if someone impersonates you and start scamming others?

Have you considered all of these risks and you're both okay with that?

Again, that depends on what you're trying to achieve. Just so you have a point or reference tho, you could do like, 15/8pics

30/8 videos

custom video (minimum 10 mins) / 40

sexting/30

videocall/ 50

Could you help me out in PM regarding cashing out? (setting up cashApp in EU, how do I safely transfer funds from there, using some sort of way to keep my real name and bank cards out of the picture)

And what is Your tips of creating snapchat account, and using it? Previous ones getting locked for some time, I don't feel using some sort of automation bot slot for those accounts is a good investment, cause I feel like they're getting banned sooner or later. Is there a way to start it as new sleeve? New number for verification, cleaning cache and stuff like that? Hi , like we already wrote , we respect HF rulez and we don't give such infos like , how to cashapp Eu/etc

Now for Snapchat to avoid locks , im suggesting you to Turn on from the settings those 3 options

- 1)everyone can see your story
- 2)everyone can pm you
- 3)don't accept anyone for some time 1-2weeks , accept them only when they are trully interest also don't do mass accepting like 5-15adds per 20mins

Your profile like this way will live longer

free packs are more Saturated like let me give you an example
one user post a free pack , 100-300(minimum numbers) users had downloaded already and used.

Paid packs : 10users bought it , much much better than 100-300 !

Sellix/ Onlyfans alone won't get you traffic. You'd have to advertise on your own to bring traffic into them. If your question is solely about platforms, which is good and which isn't, there are actually a

ton of them out there.
Sellix, rocketr, shoppy etc.

I am sure this answer is somewhere there in 31 pages but I'm curious if anything changed. How do you spot timewaster in 2023? How to start messaging a client on snap or telegram?

(Nov 7, 2020 02:20 AM)SecretAchiever101 Wrote: [\[CITE\]](#) As I said I am not going to provide you guys with an exact traffic method. However, I can say that all kinds of forums is a good place to start. The more people the better.

I'd say, the main thing in order to succeed with [BRAND NAME REMOVED] is patience, selling premium and meetings, as well as pictures and videos.

Focus more on meetings obviously, this is where most of the payments come from usually.

Regarding the shadowban issue, I wish I could help, however I cannot. To my knowledge and experience, up until now that is, there is no better way to treat a shadowban account other than letting it rest for a day or two, however, even then, the chances that is going to remain shadowbanned are pretty high.

So, in the end, my advice is , if your account gets shadowbanned, go for another account.

Hey brother! I'm still reading through this whole thread so maybe you answer this later on. But I see you keep mentioning meetups but I know you don't scam. So how do you do a meetup? Do you have actual girls that go meet them?

Thanks!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

For someone with no knowledge of this, where do I begin/how can I get started? What platforms would you recommend like Snap, IG or something? how to get traffic? I know you can't mention specific traffic sources, but could you tell me as a beginner/someone that wants to give this a try, how can I get traffic?

Hello guys. Me and [SourceCode101](#) We consider ourselves to be professional e-whorers (supposing you can use this term for any e-whorer at all) averaging about 350-500\$ per day. We have been ewhoring for more than 5 years now. We are the leaders of the E-whoring group Succubus, the only certified group in Hackforums that's e-whoring related.

I have been getting a ton of messages from people asking my advice on how to e-whore so I figured I am going to provide you guys with some information free of charge. This community helped me grow and reach this level, so I feel I owe you in a way.

What kind of information can I ask you?

Literally anything.How to spot a timewaster?

Is it worth to e-whore in ...-> insert-example-here

Tips about social engineering.

Are premium packs worth it? Where can I find good packs? etc.

Having trouble with verifications? Ask for my help.

What kind of information should NOT ask you?

Specific traffic. I won't reply with exact information on where to e-whore specifically. However, we are willing to offer you general tips regarding that topic.

Economical fraud. I am not willing to help you create a fake account to receive payments to. It's against hackforums rules and we advise you to take your time and read [\[url=//hackforums.net/misc.php?action=help\]](http://hackforums.net/misc.php?action=help)Help Docs[/url] before using this site at all.

Blackmailing. Again, it's considered as blackhat activity and it's forbidden to be discussed on here.

Do not offer to pay me to mentor you. I just launched my mentoring campaign. If you are interested in this kind of service make sure to click my signature, this is not the correct subforum for this particular discussion.

Also, please, do not pm me directly. Post your question in this thread and I am going to reply to you when I have the time to do so.

Keep it simple. Keep it respectful. Abide by hackforums rules and get that bag. ?

Good luck to your endeavors.
