\$0.03/profile view without the guarantee that someone is actually going to click doesn't seem like a good deal.

It's 900 unique views a month. Monthly rate is \$110.

But that's unique views, could be 25,000+ views monthly. Ya never know.

It's definitely an expensive signature space. I'll agree with ya there

lowered prices

This does not make any sense? \$20 a week and \$90 a month? It would be cheaper to buy 4 weeks of \$20 a week which would be \$80 in total and 4 weeks is roughly a month?

I don't wanna be stuck with the same siggy for a month.

Most likely if you buy a week then someone else will buy the next week
