Thread: [What changed on HackForums? Returning member](#)

Informedx64 - May 13, 2020, 8:21 pm

Back when I used to be active, the site was completely different. I left just around the time the whole rep system and new marketplace system was introduced.

I Omni still here? Has the staff changed and have any well known members left? Any high profile/controversial events?

Can you still get ub3r?

Any other interesting developments are also welcome.

Are you a 12-year kid? Why do you think Omni would not be here?

I'm not too sure what all has happened since then. My days are kind of jumbled. Hakuman is a thing. Somebody just started a Minecraft server that uses a farming eco and you can buy or sell bytes with it. It's unofficial but a good idea. Xerotic is still in full robot mode, you would just have to check the news and look around.

Welcome back brotha! I'm semi active and still finding stuff out lol

Shrooms - May 13, 2020, 11:15 pm

Welcome back to the server, come join us playing Minecraft like the good old days. (I'm not joking)
