Thread: [\[EDU Mail\] Selling EDU Mail Accounts | Azure | Github | Office365](#)

Lunita_ - May 14, 2020, 2:50 am

Hey.

I'm selling EDU Mail accounts, as I've acquired a bunch of them lately, again.
Price is 1.49\$ for a single account. We can discuss discounts for bulk purchases.

You can use these accounts for a number of student benefits, including but not limited to; Github Student Pack
Office365
DigitalOcean credits
Azure credits
etc.

I can also save you the trouble if you need something specific. Hosting, long-term storage, domain name etc.
Let me know what you need!

Hit me up with any questions. ?

Anyway you could do a custom student email with my name? I'll be interested in that one, thank you!!

I got a vouch copy, thanks! The email works great, it is on Microsoft and the email I got was aged. Great service, I hope account lasts long.

Hi man, I opened the contract and paid through shoppy with BTC, but didn't receive anything. Any chance you could check? Thanks!

Sure!. It seems like you've received the account in your mail.

If you can provide your mail address with PM, I'll share it again. Maybe you misspelled your mail on shoppy.

Also thanks for purchasing!

scammer alert. Don't buy from this guy. He will promise what he can't deliver, accept money, and then stop responding to messages.
