Thread: [Help Starting A Successful Forum | Portion of Earnings Offered!](#)

KidsWithGuns - May 14, 2020, 1:26 pm

Hello there. I want to start off by stating that if you are looking for money, this is not the right place as I will not pay you to help me with my forum. Stop being hungry, there are thousands of methods you can earn \$\$ on this forum. However, an exception can be made that if you contribute a lot and help increase sales (if we sell), you may be given a portion of the earnings. It really all depends on the work and effort you put into making the forum. I also want to say that I hope everyone is doing well during CoViD19 and washing their hands and looking after loved ones. Anyways, I guess I'll get right into it. 2 days ago I have made a forum and I am needing some help. It is a myBB forum and its registrar is Namecheap. The forum is currently on myBB 1.8.22. If you would like to check out the forum, it is located [here](#). Here's what I need help with:

- Support system (ie. make a ticket)
- DDoS protection (<https://prnt.sc/sgxoqj>)
- SMTP mail verification (<https://prnt.sc/sgxo8j>)
- A nice, unique, easy to the eye theme (<https://prnt.sc/sgxmie>)
- shoutbox/chatbox (<https://prnt.sc/sgxlsj>)
- forum store for premium & ultimate (the upgrades)
- custom BB text formatting bar (<https://prnt.sc/sgxkem>)
- custom index (<https://prnt.sc/sgxktz>)
- auto moderator (spam detector)

and many others that I will need..

If you are specialised in this department, please contact me as soon as you can. Previous experience is required.

You could easily learn how to do everything on you list in less then a day if you don't wish to pay. I may host your site and do your list for lifetime ad and link placements however.
