Thread: [I paid a 1,000,000+ follower instagram account for an onlyfans ad...](#)

b2plane - May 15, 2020, 1:49 pm

....24 hours later after the ad, this is the result....

Spoiler ([Click to View](#))

It fucking failed. Can you even imagine. im frustrated as fuck. i paid \$100 for this ad. I paid the girl \$100 cause she is poor and begged me for money cause she didnt have food to eat and shes willing to do verifications and take nudes in return for snapchat and onlyfans. I am in -200 fucking dollars. this is 20,000 in my currency. i took a fucking calculated risk and i still ended up sucking dick. i took so many risks and failed. i took yet another risk and fucking failed again. but however i only failed if i dont learn what went wrong here. all those instagram whores take off their clothes create an onlyfans acc and smack an ad and kabam they're millionaires billionaires within 7 days. but i sucked dick. what the fuck. so please help me, help me figure out and learn from this mistake so all that time effort blood sweat and money doesnt go to waste - what went wrong here?

Luca - May 15, 2020, 2:21 pm

Children who follow most of those IG pages can't afford an OnlyFans subscriptions. Find more mature traffic.

your fine man. keep donating poor instagram Thots. queens need money and if your not supporting them your a soyboy and enemy to society.

WOMEN make babies.. therefore women important. so you need to donate them. understand? if you dont understand this logic, then your stupid, sorry OP, and if you understand this logic but still dont donate to women, then it means u dont want new kids to live, and u want the society to die. Which means ur enemy of society

What exactly went wrong? Didn't get verified? Didn't get the traffic you wanted?

Geralt - May 15, 2020, 4:26 pm

That's cause she has fake followers. No one in their right mind would charge such a low amount for an ad on such a big page. With 1 mil legit followers, the post would reach 100k-150k, that's a minimum of 100 subscriptions on your OnlyFans.

Toosii - May 15, 2020, 4:28 pm

my ad was seen by 13% of his 1,000,000+ followers and..... 0.05% of people out of 1,000,000+ of his followers have followed....the onlyfans instagram page..... wait a minute

he has fake followers??? how can i confirm that?

This page isn't optimized for onlyfans traffic 100% guaranteed. A large portion of this demographic is under 18 years old. You need to find pages that have more mature traffic and fit the niche of onlyfans better. For example: an already successful onlyfans girl with good engagement. Keep in mind they don't have to be anywhere near 1m followers to be HQ. I wish you the best.

believe me i dm'd over 50 pages and exactly those optimized for onlyfans but almost none of them responds to me, none of them even reads my message and only a few of them bother to respond. i tried sending an email and none of them responded. only <https://instagram.com/clips> responded and they ask \$1000 for story or \$1500 for post ad for 24h

it was a post ad (which is even more expensive), not story

I know @clips mutually. He's done promotions like this in the past and the price back then was \$999 so the \$1k doesn't seem like there's anything odd going on. However not everyone got the quoted followers they were told, they claimed 20-25k+ new followers or something like that and some only got around 5k I believe.

IG promotions are always a risk unless you actually know who you're dealing with and/or know someone that's connected.

how reliable is @clips? and how good is he for onlyfans ads specifically?

He/she had 1.4 million followers 3 years ago, all gained within 4-5 months, and then the account stagnated for 3 years, even lost 100k or so. Look at his SocialBlade statistics.

If you have no way to check someone's statistics, simply open comments. Likes and followers can easily be faked but comments from legit looking accounts are harder to find. So if a post has 5000 likes and 10 comments, those are obviously fake likes. An account like this one should have a minimum of 10k-15k likes per picture so 200+ comments.

Even if the account was legit, your ad would fail since you targeted teenagers who look at memes all day. Find an actual chick who is a model or whatever and advertise there, tell her to post a story "Swipe up to see my friend nude :)" or whatever. Obviously you'd want a girl who doesn't have her own onlyfans because she wouldn't advertise competition on her page.

MrJamesDean - May 16, 2020, 8:24 am

Sounds like you got scammed buddy :(you gotta do more digging on the accounts, check followers and comments to see what's real and what's likely fake.

HF members are E-Whoring each other, it seems. OP should grow up and learn from his mistakes.

Exalted - May 16, 2020, 9:31 am

Better luck next time OP, shit happens. And looking at the Instagram profile, it doesn't look like the best place to place a FansOnly ad.

I have no idea x2

Like I said I just know him mutually and what happened when he offered his service before, hence what I put in my first post on this thread.

I would just ask him personally and see what he says. Granted he may be bias and just tell you what you want to hear. Ask around to people that are knowledgeable about onlyfans and also Instagram who'll be able to tell you exactly where to go and if people like @clips for instance is actually worth it in the end.

SIM-888979 - May 17, 2020, 5:57 am

Stick to regular old eWhoring.

You don't need to spend money.

gurlhackerclub - May 17, 2020, 6:19 am

\$100 is not much money. Maybe to you. Consider that sunk research content.

But buying traffic to porn is not a good idea. Find a way to generate your own traffic.

Get creative. This is the fun part.

Zee - May 17, 2020, 6:27 am

Realistically you'd be looking at \$1000/24hour at 1-2mil real engaging followers.

I've paid a lot of people/pages to promote my products on Instagram. If you've paid only 100\$ for a post on an account with 1m followers they are probably fake. On pages with 200-300k followers and a high amount of engagement you will pay atleast 200-600 dollar.
