Thread: [PC, XBOX, PS4 | Call of Duty Modern Warfare UNLOCK RARE EMBLEMS, CALLING CARDS, CAMOS](#)

ConquerServices - May 15, 2020, 2:44 pm

Hello there! Welcome to my thread. Before you go and reply to this thread saying that there already is a public method released, please know that our methods are COMPLETELY different to the public method released. We have been doing dupes before the public method being released. Our services are 99.9% safer than the public method, and everyone we have done our services for has not reported a ban.

Do you have anything for COD Warzone, or is this the same?

We mainly do rare emblems, camos, calling cards, etc.. This can all be used inside warzone

We would need to do a recovery in order for us to apply what you want. Depending on your order, it will take around 5-20 minutes

Please do not taint our businesses. We know there is a public release, we're just a service that helps provide the same products for cheap for those who cannot do it, console or pc. We have been doing dupes before there was a publicly released method.

Our services are 99.9% safe, we use a different method compared to the public method released. Of course with every dupe exploit there is a bank risk. But for every person we have done our services for has not reported a ban:)

For all Gun Unlock ,

Can you do it Max Level ? and you u give the warranty the account wont be Soft ban ?

Do u need to the the MP ? Mode or Just warzone fine ?

Can u Unlock all Gun Max level ?

We cannot max out your weapon levels for you. In order for us to do our services you must have the guns above level 10 to apply a blueprint with the camo. Further detail is given out on our discord. We give a terms of service in our discord when purchasing our service, and having just warzone itself is fine.

Don't deal with them, was conversing all fine then paid and didn't really hit me back, then went cold and got kicked from the discord group, still haven't received the service and looking for a refund but no response.
