Thread: [50\\$-100\\$ \(perday easy earnings\)](#)

s??l?s? - May 15, 2020, 5:22 pm

Just post here or pm me,to get a trick that will make you earn 50-100\$ per day.

This is working from last 13 days and will surely work more.

Its a newly launched website by some noobs,thats throwing money.

I already made mine,And still doing it.

I know it will stop soon,so why not sharing with everyone.

Note: It required 250\$ investment,which you can earn back in 2 days or less.

Seems super sketchy. User supplied me with the "method" which was a copy paste with a ton of information but "forgot" to give me his affiliate link, which would be his entire incentive for sharing it if this were real. I believe the website in question is either owned by OP or someone he has ties with.

Personally not going to risk \$250 on this.

I'm just trying to prevent people from getting scammed homie. The referral link you sent me (after I pointed out that you didn't do) isn't even for the same website for the method you provided. 100% a scam, stay away fellas.

How could you forget if you're copy/pasting a 1000+ character method? The referral link you provided after the fact isn't even for the same bustashit website that you provided the method for? None of it is adding up in your favor at all.

For what? Exposing an obvious scam? Sorry you wasted all that money a bustabit license lmao. Hopefully nobody is actually dumb enough to fall for this.

You are such a dumb user,i have ever seen.

the script works on all bustabit version 1 websites.

earlier post-> <https://hackforums.net/showthread.php?tid=6077497>

when i found another working website with same script i thought,its better to give for free,rather than selling.

and i will sell next script when they already win first time,using my script.

I will contact admin for your senseless post.

And then will reopen,so you cant post trash again.
