Thread: [Make LEGIT \\$ in the Forex Markets with Forex Funded](#)

ForexFunded - May 15, 2020, 8:15 pm

Sorry that I don't have a fancy thread design.

I've never posted my services on any forums. Also shouldn't need one.

My profits and member profits are what brings in members. Not a flashy theme..

For those numbers and profits going back to 2017, you will need to refer to my Instagram @ForexFunded for past Trades and Member Profits (on Highlights)

What Do We Offer?

A Forex Trade Room

What is a " Trade Room" ?

The FF Trade Room is our Discord server for all FF members.

We send our trades, analysis, and have a chat room for all member discussion.

We use Zoom for our LIVE TRADING SESSIONS and LIVE FX LESSONS (which are recorded for all members unable to attend the live)

It's as simple as receiving our Trades and placing them on your account.

NO PRIOR FOREX KNOWLEDGE NEEDED!!

Weather you're just starting with Forex or looking to expand your own profits, let us help you to become FOREX FUNDED ?

Join to PROFIT, Stay to LEARN

Pricing:

Monthly \$149.99

Lifetime \$599.99

Some will immediately think these prices are too high. You're expecting QUALITY, is that ever cheap? I have no issue pulling in members at those prices. I'm just now posting them on forums, so please don't try to haggle with me. I occasionally post discounts on my IG Story, so if you want some kind of discount your best bet is to follow me and wait for one of those!

Thanks to all reading, and anyone with questions, leave them below, in PMs or on IG Dms

I post my withdrawals on IG, along with a lot of the things I buy. Cars, clothes, jewelry ect...

Furthermore, clients post their profits, withdrawals , and stuff too.

Sorry that I'm unable to provide you the EXACT amount I make personally.
More of a privacy issue.

It's better to see what someone like yourself may make, via client profits

I have recently created a small account that serves as that purpose, % gains.
If interested PM me for the link until I post here :)

Thank you, I have a few others, and a new toy coming soon.

I started in 2016 with education and demos. 2017 funded my first live.

I wasn't asking to see the total you've made, you can hide that. but can see your % gained, dd and other factors that link into these. I'll message you soon.
