Thread: [\(Looking for\) Skeet invite](#)

Mom - May 16, 2020, 12:40 am

Spoiler [\(Click to View\)](#) I am fully aware that I might get bashed for making this thread for begging/asking, I would like to sincerely apologize but this is my last resort and would love to try to see if someone could hook me up with an invite.

Spoiler [\(Click to View\)](#) Please don't bash on me, I sincerely apologize even before I type out the rest of this thread

To be completely honest, I did not think that I would have to make this thread, I'm not giving up, but I'm just sick and tired of trying to make friends in the HvH community as toxic as it is in its current state. It's not hard to make friends, but trying to make friends with someone that's toxic and someone with a bad mindset is just mentally draining for me. And if you ask me, it's not really true friendship if you just befriend someone to get invited to a cheat.

With all that being said, this is my last resort in regards to obtaining an invite, like I said earlier, I apologize for asking and "begging" if you want to call it like that, but I'm sure that at some point in time, YOU were looking for an invite as well, I'm hoping to find someone that'll stoop down to my level and relate to where I'm currently at. I also don't think that it's really worth spending money on an invite either, or an account, it's just too expensive to be spending more than \$300+ on a Cheat invite, I understand the rarity of the cheat, but in all honesty it's not worth it.

I am fully aware by the time of posting this thread that I'll probably get bashed on, and shit, but it is my last resort to ask on this Forum, where I know there is a good amount of confirmed Skeeters. I also am fully aware that invites are meant to be given out to Friends and stuff like that, but NO ONE that I know Online has Skeet, and like I stated previously, it's extremely hard to make friends on such a toxic HvH community, I've tried for 2+ years to obtain this invite, so if someone has one invite laying around and feels generous, please bless me up with the invite.

If this thread gets out of hand, I will close it ASAP, I just need to find one person that's generous enough to bless me.

I appreciate the positive response. Hopefully someone that's empathetic can relate to where I'm at currently and actually bless me with an invite, but that day will come soon, hopefully. I understand the threat of inviting someone that you don't know, might get invite banned, etc which in return will invite ban you, etc, but all I'm looking to do is just play with Skeet myself. I don't care if it's not "hitting p" or not, I just want to play with Skeet and actually sit back and enjoy the game without having to sweat with other cheats, if that makes any sense.

And good luck yourself as well!

I can tell a lot of emotion, blood, sweat and tears have been put into this thread. I'm praying for you to get an invite g. Stay blessed. xd

And frustration, lots, and lots, and lots of frustration. Not saying that making friends is hard, it's really easy, but trying to make friends with toxic people is harder than you'd imagine, I can't fit into their mindset, it's just mentally draining. I hope I can find someone that comes across this thread with an invite that can hit me up and show a little empathy to my current situation.

We'll see when the day comes though, I'm hoping soon but you never know. :/

LOL, good luck getting an invite. There is no empathy on these types of forums so you can honestly kiss your invite goodbye. Unless someone gives it to you in spite of THIS post.

I can picture you getting all emotional behind your monitor. Smoke a J kid relax, it's just another cheat for a game lol.

AyyLmiao - May 17, 2020, 5:13 am

Smoking right now would be nice, but I understand, it's just frustrating to me to be honest, but I'm sure someone will come through and help me out, I'm just waiting patiently.

YRN_ - May 17, 2020, 8:58 am

why do you need skeet? why not just get ev0 or aw. iirc isnt hvh dead?

Why wouldn't anyone want Skeet? I mean it's extremely good, and undetected. And no, not necessarily, HvH is still pretty alive atm tbh.

But I just want the cheat because I don't really want to sweat or get frustrated while just trying to sit back, chill, and hvh, and I'm sure Skeet can provide that for me, using Onetap just gets old after getting tapped almost every single round. I've heard way too many positive things about Skeet, and I've always wanted to play with it.

Spending loads of money for JUST AN INVITE is way too much money, I'm not going to pay someone \$500 for just an invite. It'll happen, I've seen it happen before, and I have my hopes.

the cheat is overrated most p2c are at the same standard as skeet for hvh

I mean to be honest, everyone can say that, I've always had bad experiences with any other client and would love to give Skeet a try. Nice e36 siggy btw.

Synode - May 17, 2020, 5:11 pm

sorry bud, no can do

watthefux - May 17, 2020, 5:33 pm

Crying for a cheat like a beggar on the street asking for money so he can go buy his drugs, quite pathetic.

You're 100% right man! Great observation. I've always been taught to help other people no matter what situation, even if it is someone begging for money on the side of the street, because if I do good for people, good karma will come back to me, seems like your parents taught you wrong. Personally if I was on the other end of this Screen with a Skeet invite, I'd definitely help someone out and make their day better, but hey that's just me.

It's the thought that counts.

Anyways, for those that have an invite and feel generous, send them my way through PM's! I'd greatly appreciate it. I'll close this thread once I receive an invite!

Aww you gave me negative popularity :(go beg somewhere else, won't get you anywhere. Pathetic kids like you make me want to punch my monitor.

Like wtf are you doing, 4331 posts, have you not learned a thing?

Lol. I've done absolutely nothing to you, I don't know you at all, but you choose to waste your time and reply to this thread, surely you don't have anything better to do at this current moment but display your anger issues on an online Forum, "pathetic". Don't know why you're getting all upset for no reason at all, lol. What happened, girlfriend broke up with you or something? Just because someone is asking for something, doesn't mean that you need to be an asshat.

Over the course of 4 years, yes I've learned a lot and posted many times, but I don't go on here for "Hacking" tutorials, I go on this forum simply to communicate to other people and have a fun time.

I ain't reading that essay. You're acting like a snob for a cheat invite. Look at yourself in the mirror for 5 seconds, think about it, and you'll realize how pathetic you are right now. ?

IMAGINE wasting YOUR time replying to this thread, couldn't be me <3. If you're so bothered by something why not ignore it? Rather than ignoring it, you're just being an asshat like the other guy that's been wasting him time by replying to this thread, you're gaining absolutely nothing, Imfao.

Not worth my time to respond to these asshats, so closing this thread. I will still be in search of a Skeet invite, so if you have one, PM me please!

/thread.
