The egg expires if you don't hatch it

Edmo. - May 16, 2020, 12:47 am

Maybe your last egg disappeared?

Deany - May 16, 2020, 12:47 am

If you were ub3r your egg wouldn't be as useless since you could offer it in the HF lottery.

Bacardi Cola Lime - May 16, 2020, 12:53 am

I get the same type of egg award multiple times each day. You don't want to keep it on your profile as it will expire. You can either use it on the Hackuman game if you were an Ub3r, create a lottery and give it away for bytes.

They die and disappear from your profile if you don't hatch them within a week

Vibe - May 16, 2020, 3:24 am

I just raffle mine otherwise they disappear anyways

Cooligan - May 16, 2020, 3:26 am

Sounds like you got the notification, opened and read it, and then didn't check your profile until a week later when it disappeared already. Or something along those lines.

Rsynced - May 16, 2020, 3:30 am

This is normal, nothing to get upset about.

You get the award and it either rots away after a few days OR you put it in an incubator..

It has happened to me too. I was so pissed. But I was told the eggs disappear after a while if you don't hatch. Till date, I don't even know how to play hauman game or whatever it is called. LOL

I agree, because newbies like me could do a lottery for the eggs and use the proceeds to sell bytes for money and then spend that money on upgrading maybe.

Go to <https://hackforums.net/hackuman.php> and start raising that bad boy before it expires.

It's not technically an award. It's an egg that you have to hatch or it'll rot.

High Council - May 16, 2020, 4:35 pm

Yeah so I fed the egg from the link someone posted, and my original egg is gone from my profile. The one I got yesterday is no where to be found. And I have some little rat character on the hackuman game -.- /:

What the fuck, I just responded in this thread and got another one LOOOL.
Omni pranking me xd.

Best regards

When you hatch it, it becomes a hackuman. It will be gone on your profile. It's not meant to stay.
