Thread: [Android RAT or Botnet w/ SMS Delete option](#)

Richest. - May 16, 2020, 10:21 am

Hey all,

As the title said, I am looking for any free or paid android RAT that allow me to delete SMS as well.. I tried most up to date RATs but none seem to have that option, older RATs do but they are outdated.

Do you know any Android RAT or Botnet Paid or Free that allow me to delete SMS?

Thanks in advance!

Droidjack v4 does this, but it's free and detected as ?UCK

Apk Needs to be repackaged, obfuscated or crypted.

Thanks for your reply!

I will test this and see if I can crypt the apk!
