Right now we are tweaking the website on adding residential proxies.

Main goal is to offer some reliable HTTP or SOCKS5 dedicated proxies with unlimited bandwidth for a month at \$2.50

Yes you can. I would say for Netflix you need more dedicated proxies which we offer those on our website. If you check the private proxy section you will see. Those have a private usage for a month at unlimited bandwidth.

Fixed, but a very odd situation. Check your PM's and your account has been updated.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
