I voted for 10\$ just because bytes value is going a bit up & down lately, atleast it's what I see in some threads.

Oh, and congrats on the win, you're making casinos go broke man

Haha I wish I made Casino's go broke, seen people in my network win up to \$9k so 'winning \$40' seems small to me, but I still love it.

I only gamble with money I am not afraid to lose, which is the best way in my opinion.

About the bytes;

Since members figured you could buy (bulk) bytes from Omniscient, they decided to monetise it. Impatient people try to make a 'quick buck' by re-selling bytes as low as \$3.3/k.. others at \$4/k or \$5/k.. I will wait with my bytes sales until Sportsbook comes back or when the 'bulk-boys' (including

me) are agreeing to re-raise the prices again of the Bytes for better profit margins.

"I only gamble with money I am not afraid to lose, which is the best way in my opinion." that's the right mindset mate.

About the bytes thingy, yeah I heard about that, good ol' reselling.

Oh and thanks for the donation ?

Anything is fine.

Best option is \$10, gets you 2,250 Bytes for \$4/k

Geass - May 17, 2020, 1:34 pm

I will vote for \$10 BTC, direct money are always better in rewards :D And you can make them bytes later.

I won again at some BTC Casino and withdrew \$47 (\$50 - fees) and decided to share some of it with you all.

Already promised someone to purchase ? off him so I won't be able to share too much, though.

What would you rather win at my Contest / Lottery?

< 2000 Bytes

< \$10 USD BTC

< 1000 Bytes + \$5 USD BTC

Please post here and/or use the Poll of this thread.

I will launch the Contest or Lottery next week (tomorrow, assumably). Or whenever I have a clear

vision of what's preferred as a prize.

Thank you in advance for voting and may the luckiest member, win! ?
I love the idea of more than one winner. So the third option!

It should either be 2,000 Bytes or \$10.00 BTC.

Don't split it up. A short contest or lottery is always the best.

Yin Yang - May 17, 2020, 4:23 pm

I'd take the BTC for sure since it's crypto

You still don't get it..

Prizes are;

< 2000 Bytes (\$5/k = \$10 USD BTC)

< 10 USD BTC (same value)

< 1000 Bytes + \$5 USD BTC (\$5/k = \$5 USD BTC + \$5 BTC)

I host another Contest or Lottery with 1 winner.. so the prizes are equally in value when sold right. I hope you get it now lol.
