Thread: [SQLi Error WAF Bypass - link inside](#)

krlo-s - May 17, 2020, 10:46 am

Greetings Hackforums,

I have an SQLi vulnerable site WAF protected but I can't bypass it to get the columns of the database table "accounts"

Please can you help me?

<https://www.dropbox.com/s/6jm0e3w3qtyp5qc/vulnerability.txt?dl=0>

I got database and tables by:

select

where

from

However columns do not show, I think the asterisk "*" is being blocked. I tried this:

table_name

/*table_name

table_name

database_name

table_schema

C//ol//UmNS

COLCOLUMNS

INFORMATION_SCHEMA//C//ol//UmNS

INFORMATION_SCHEMA

Thank you

I don't usually say this, but have you tried SQL Map? It has some mostly used WAF tampers. If doesn't help, pm me for more

Seems like tihs WAF is hard for everybody...

linhtinh - June 5, 2020, 11:28 am

Everybody dont know hard or not when vulnerable url not available

Yes i'm fricking blind

krlo-s - June 6, 2020, 3:14 pm

So you are not, how you managed to bypass the asterisk "*" and other queries to get the columns?.

krlo-s - June 13, 2020, 8:39 pm

Please help me out, you already bypassed it

Thanks
