Thread: [how to inject exe file into pdf or word file](#)

madeha elsayedxxxx - May 17, 2020, 12:59 pm

hello every one

using c# . how to inject exe file into pdf or word file
and the output file be with word or pdf extension
thanks

VisualSoft - May 17, 2020, 1:27 pm

you can not do this with C#, you need to get some exploit to make it possible.

I think you can, assuming you know what it is you are writing here. This is pure byte manipulation, it should be language agnostic? If you are referring to executing the EXE reliably when the PDF opens, sure that's a different discussion entirely although, with .Net Core this should be possible assuming you have the attack vector.
