Thread: [I need a web designer to build me 3 professional Shopify drop-shipping stores.](#)

**SIM-4339250** - May 17, 2020, 4:29 pm

Intro:

My names Ninety Eight, I do a lot of business on the internet. One of my main things being creating Shopify stores, running them for a month and then flipping them to someone for a higher rate. I originally had an amazing web designer from HF who is now banned doing my stores for \$75 USD each and they were beautiful. My dilemma now is I can't find him and I need a new amazing web designer to take the role. I hope one of you is interested.

Job Entails:

- Creating THREE separate Shopify drop-shipping stores based around the theme and products I provide you.
- You will NOT need to do the graphics for the site.
- I will need HIGH CLASS design, no shitty themes or even slightly mediocre work.

Requirements:

- A nice portfolio.
- You will need to have experience creating Shopify drop shipping stores specifically because I need someone who knows the ins and outs of Shopify and won't fuck up my store because they're just a web designer trying to make a Shopify store.
- Your skills for store building will need to include: animations, creating product pages, sleek design, video incorporation.
- Essentially it can't be worse than my last project ([www.sequeldrones.com](http://www.sequeldrones.com)) which I only paid \$75 USD for.

Job Payment & Details:

- I do want someone working full-time on this. Looking for 1 website every 5 days, for a total of 15 days. Assuming with the right amount of time put in, one could be created per day. But again, I don't want to rush it.
- Job pay is \$200-500 USD via BTC or Paypal. We will discuss exact pricing.

How to get the Job:

- Post a reply under here with your discord & PORTFOLIO!
- PM me with a way I can contact you & PORTFOLIO!
- Add me on discord and let's talk----- NinetyEight#9898

Thank you so much, hope I get some people interested!
