Thread: [\[\\$5\] GTA V MONEY SERVICE | Bytes accepted | PP & BTC | \[Since 2016\]](#)

Wespa - May 18, 2020, 10:24 am

I'm offering my GTA money services for Bytes, Paypal or Bitcoin.

Pricing

If you don't have cloud saving enabled.

330 Million & Everything unlocked & any rank (All dlc's, haircuts, clothes etc).
\$8 or 1.3k bytes

If you have cloud saving enabled and you have completed the beginning mission.

330 Million & Everything unlocked & any rank (All dlc's, haircuts, clothes etc).
\$5 or 1000 bytes

If you somehow manage to spend all of the 330 million on the same day of purchase, I'll redo the service for you.

I can also do custom orders!

Terms of service.

- 1) All sales are final, no refunds unless I majorly fuck something up.
- 2) If you get banned, I will redo the service on a new account
- 3) By purchasing you agree to these terms of service.

I have been doing this since 2016, here is my old thread with vouches so please don't ask for a copy.

Hi! Sorry, its PC only at the moment.

It looks like a great service. I recommend you to obtain money with glitches and legal ways using mod menu. Everything is server sided nowadays. If you log in any account and add money with cheats, then that account will get banned in 1-2 weeks. Many people are coming from other mod menus and telling that they got banned for using Add Money or RP feature, other features are safe for paid mod menus.

Thats just not true at all. I been modding on the same account for over a year, god mode, money, casino chips and everything no ban.

Its all about if you get reported. So always play in private sessions, most of their automatic detection is terrible and easily bypassable.

Good luck with your service OP cheap ass prices.

Yep I can vouch with this. Everything quoted was pretty much bullshit.

I've had services done by OP way back before contracts were a thing and haven't been banned.

Best of luck with sales.

Yep I need this for PS4. Wish it were available.

Highly interested. Just wondering, how does this work? Am I going to get the cash on my own account or going to get a new account with the cash?

Note: I claimed my free account from Epic Games and currently at level 25.
