Edition 1

Welcome to the new segment that I am introducing. It's called INTERACTIVE TUESDAYS! WOO! Anyway.. basically what this is.. is an interactive news segment! I take your threads, and put them and explain them to the members who read this thread! Simple!

Also, I do interviews, via MSN and what not and upload them on YouTube and embed it in the thread!

This is the first edition!

User submitted threads/news!

This is the section where I show off people's threads!

[mdfilms](#) is selling an eBook on how to make YouTube bulk accounts! It's only 50 cents, yes, 50 cents, so you can't go wrong! The reviews are good too! Buy the book [here](#)! Good luck with sales mdfilms!

[Nima304](#) made a thread on "downloading the internet" with new technology coming up in 5 years, etc. It's a VERY interesting read, and has a lot of logic. Good for you Nima! I suggest you check it out, if you have an extra 1-2 minutes to read a [Quick Thread](#)! Comment on it too! Good luck with your adventures Nima!

Haruhi-ILOVEANIME-Suzumiya is selling a seedbox for only \$3, and \$1 for UB3Rs! Yes! That's SUPER DUPER CHEAP! Check out, and purchase if you'd like in [this](#) thread! Haruhi, I'll watch some anime with you sometime.. if it's cool? We can also bring Nyx- along!

[Pagman](#) released his .NET protector, called BitCrypt, recently! Good for him! It hasn't been cracked yet, so crackers, the door is open! I kid, but good job not getting it cracked yet. Check it out if you wish, in [this](#) thread. Good luck Pagman!

[SilverWolf](#) wrote a review about the MMORPG Shin Megami Tensei Imagine Online! You can play SMTIO [here](#). It's a game by the popular game creators, AeriaGames! It has a ton of good reviews, so you might want to check out the game, and his review! Good job!

crawl7 has gotten his 1,000th post today! Congratulations to him! He has been a member here since May 2009. He reached 1,000 posts, after having been online for roughly 2 weeks (total online time)! Congratulations to him, and may him reach for 2,000 soon! Give your appreciations to him in [this](#) thread! Congratulations!

-[i]Dzire-™ made a thread about his eBook safety guidelines, which are obviously unofficial, however, it's decent advice. Go check his thread out [here](#), and good job writing it. It's pretty long for

a guideline type thing, so that's a plus. It's decently written, there's grammar errors, but you can still read it.

Website of the Week!

This is a segment where I choose a Website of the Week. Technically, there'll be two of the week, since I'll do it on both Interactive Tuesdays AND Headline Saturdays.

The website of the week is Regime Radio! The thread is [here](#) and was made by KingDante! It's a radio that plays all types of music, so you should tune in sometime to them! I'm sure they'd appreciate it!

Turn in at www.regime-radio.info and congratulations on being one of the Website of the Weeks!

INTERVIEWS!

I will also be incorporating this in Headline Saturday editions! This is where I interview someone over MSN and I post it on YT for you guys to enjoy! This week, was [Backslash](#) an UB3R and Reviewer! Here is the interview, sorry it's in 3 parts..

Oh, SORRY it was cut off for a little bit. Just try to understand what he's talking about, it's not that bad. I fixed it in Part 2.

IMPORTANT - FAKE CRYPTERS!

This is an extra segment I added, just to address some things. There has been fake crypters going around to infect people of HF, and it's not good! They will steal your account, then repost it on your account.

These are fully FUD on NVT, and other things. Common names go by Devil Crypter, XCrypter FUD 100%, TGEye Keylogger Crack.. etc.

IMAGE OF XCRYPTER -

[img]<http://i67.photobucket.com/albums/h304/aznganster94/screenshot4dt8.jpg>[/img]

TGEYE CRACK -

[img]<http://tgforums.com/images/TGEYESS2.jpg>[/img]

The description for the crack -

"I am now more in cracking Well. Here my first work. TGEYE Keylogger. Cracked by me. It is fully FUD etc. For more info read here: <http://www.tgforums.com/TGEYE/>

It was the Public Version where you can use it only 24 hours, but this is patched. No time limit!

What I did:

I unpacked the Keylogger
I installed "Reflexil"
I Disassembled TGEYE Keylogger
I removed the "checkTrial" Stuff
Done))"

Do NOT download these! Just be weary about what you download on the forums these days. If you don't really trust it, then don't take a risk.

Some of the threads -

<https://hackforums.net/showthread.php?tid=606432>

Stay weary, HackForumers!

That's all for this week! By the way, I did do it on a Thursday this week, but that was because I wanted to introduce it! Next week, it'll be on a Tuesday! The actual news will be posted on Saturday! Thanks everyone! Comments..?

Forward Slash - August 12, 2010, 11:31 pm

Nice Job Yin :D

Well done.

Shinkirou - August 12, 2010, 11:33 pm

Interesting idea. I read it all in like a minute ? (hooray for speed reading). I would ask if I could get interviewed, but I'm a fairly unknown person, so I figure not many people would care. ?

Nice job. ?

Nima304 - August 12, 2010, 11:36 pm

This is awesome, and another thing to look forward to on Tuesdays. Excellent read! However, I didn't watch the interview, it was pretty long.

Sithis - August 12, 2010, 11:36 pm

Great edition Yin. I enjoyed reading it.

CrazySmurf - August 12, 2010, 11:38 pm

I know it isn't much but I'm offering free sharecash downloads for all members so they don't have to worry about doing the surveys and all isn't much but it helps some.

Stuxnet - August 13, 2010, 12:11 am

That was a good read Yin. Thanks for posting it.

Kotei - August 13, 2010, 12:14 am

Just curious, are the people you are interviewing your choice or user suggested as well?

The people that were in this thread were the people that replied in an earlier thread that he made. We had to submit a form to be featured this week.

Oh damn, missed that thread. x.x

Metapod - August 13, 2010, 12:22 am

Wow, this is actually the first forum I've ever been on to do something like this. Looks.... awesome!

?Border?ineExtr(A) - August 13, 2010, 12:29 am

Yin, you should definitely fix the interviews.

One thought would be to make it over Skype, and then subtitle it, so even non-native english speakers can understand it.

gahccbb - August 13, 2010, 12:31 am

Yin, great edition.

Can I suggest something.

Do voice chats!

It's much better and people would rather listen than watch, waiting for typing :)

iBRSteven - August 13, 2010, 12:53 am

I like this a lot Yin. Makes things more interesting around here.

The only thing that bothers me is the interviews being in video.

Wouldn't it be more cleaner and organized if it was in writing?

Yin - August 13, 2010, 1:03 am

I don't have a mic, if someone would like to do that for me every week, I'll post it..

gahccbb - August 13, 2010, 1:05 am

(Aug 13, 2010 01:03 AM)Yin Wrote: [\[CITE\]](#) I don't have a mic, if someone would like to do that for me every week, I'll post it..

What would you like them to do?

Interview?

Yin - August 13, 2010, 1:26 am

Interview a member.. their choice.. get questions from people (make a thread in The Lounge), edit it, and either give me the like MP4 or recording thing.. or upload it on YouTube.

gahccbb - August 13, 2010, 1:27 am

I'd do it, but I'm 14, so yeah.

You can see what people would be like,

Even though I'm not like most 14 year old's who cry because they lost their 7 kill streak on Call of Duty.

pwntoken - August 13, 2010, 1:43 am

iDuL - August 13, 2010, 3:44 pm

Good job Yin, I really like this edition.

The Rated R Superstar - August 13, 2010, 3:48 pm

I'm just going to say it. MSN interviews are boring. Hit me up on Skype, or get someone to handle the Skype ones.

Virtual Reality - August 13, 2010, 3:50 pm

I like the idea of Interactive Tuesdays, and I have a small suggestion for the interview segments:

How about you figure out and confirm who you will be interviewing, and then post a thread on HF so that users could submit questions for that specific user? I think that would be cool!

Just a suggestion. Thanks for taking the time to write this, as I enjoyed it thoroughly!

Fragz - August 13, 2010, 3:52 pm

I should be reaching my 1,000th post this week sometime. Same month as crawl7 started too ^_^

savvymatthew - August 15, 2010, 3:12 am

i liked it but..just unexpected is all wasn't ready for all the new segments LOL

Paradoxum - August 15, 2010, 3:16 am

I almost jumped when I read this. It's a seedbox, not a sandbox. Oh well, too good to be true. ?

Albertino - August 15, 2010, 12:04 pm

Too many ppl want to be interviewed :)
