Thread: [Option to Disable PMs / Convos *** Read Post](#)

Ruggzee - May 21, 2020, 12:21 pm

I think it would be cool if we could turn off PMs and Conversations, meaning people can't message us, but with a nice catch.

Anyone who we have contracted with ever / is a staff member can still message you. This way if an issue with a deal ever arises that message goes through, and staff of course, can do what they please.

Just a toggle that can be easily flipped on and off. For me, I don't have much time to be here with my business re-opening. I hate logging in and have random people send me dumb stuff, like buy this code from me, or something random, just messaging me to shoot their shot.

Idk...maybe a dumb idea, I say let contracted members still message to avoid scammers instantly never having to see anything (even though they could just ignore someone), or if a deal has an issue that still comes through.

You can disable PMs from this page: <https://hackforums.net/usercp.php?action=options>

We currently do not offer a way to disable Convo.

We currently do not offer a way to disable Convo.
And that's why I need to explore more.

I think it would be cool to still let contracted members get through, I've had a couple deals that had hiccups, that I would never have known about, but was able to fix.

Ideas ???
