Thread: [I won the JACKPOT \(12500\) on Slots!](#)

**Lorem Ipsum** - May 22, 2020, 3:58 pm

As some of you might know, I won the Jackpot last time with a 5 bytes spin;  
<https://hackforums.net/showthread.php?tid=6078980>

And I gambled about 4k gone (I had 104k today), decided to do some larger spins and I won the Jackpot again!

Total of today; 141 spins, 17k won ([Click to View](#))

I hope you all are as lucky as I am today and please remember; do not gamble with money you can't afford to lose!

Thanks for reading ??

Holding on to them until Sportsbook come back and then selling almost all of them.

I bought a lot of bytes after selling my 'blackhat method'. I gambled a lot and won some at Lottery hosting and Lotteries from others.

I believe that we can re-raise the price of bytes for a higher profit up to \$6/k - \$7/k, if the 'big fish' agree to swimming along.

If not, happy to keep them until someone wants to buy a few or whatever.

Not even considering buying 10 lol. I never had luck with them and I don't think it's worth the \$350 - \$500 to test it out haha.

I mentioned you in my Lottery thread, I won another Ruby Egg. I usually create Lotteries for them as I don't play HUM anymore.

I even considered buying a crew for 100k, but I don't think it'll be worth it (profitable) as I don't really want to 'own' a crew.

played em, sold a little, gave away... and the majority i gambled lol. It was 530k + at my peak

i could not believe it when I read the odds needed to get some glasses. They punished me for winning so much though ?

pretty sure i got the 250k multiple times and 50k even more times

Then i won 250k on a btc card too i think

I played ALOT of slots and ALOT of scratch cards and I seriously never won alot on the slots only broke even usually. You could be right, but I don't think its a safe bet.

When I win on the slots i end up with a few 1K\$ bytes at best, and stop. But I never left satisfied like the scratch cards... thats another reason i stopped doing the slots for profit tbh. When I win its not alot :/

Maybe im unlucky with them

i just cant build up my bytes like using sratch cards. sucks mang

And I wasted 10k on Scratch cards and didn't got any luck.

It's all about luck, you can't claim to 'not win' anything big or any platform. It's different for all, but again, I get you...

ya i was buying 10 at a time at some points for sure. I built up big bytes many times, I just didnt stop.

This should help now this is the bytes cards 99 percent nearly:

11122 wins

10343 losses

Now add those numbers up... I think they are certainly BIG enough to support my experience with them. I built to alot of bytes many times just buying those byte cards over and over lol
