Thread: [python object detection training software](#)

anti-protection - May 22, 2020, 6:40 pm

anyone know where to get training software?
im looking to make esp for xbox with python

ETH - May 23, 2020, 2:10 am

No one provide software you can create one with openCV and train them with large dataset

Raid7 - May 30, 2020, 10:42 am

if you're going to make a ESP, you'll have to read your data from memory, information on the screen won't help you make a ESP

computer vision with real time object detection only need training software meaning you have video clip or image clip

The-Criminal - June 18, 2020, 11:56 pm

You might wanna checkout opencv
