One punch man (I think thats what it's called) but yeah dude, just got hooked after first episode and also it's on netflix!

My recommended new animes are Tower of God, Plunderer, Glepnir, Dr Stone, One Punch man S2 and The Rising of the Shield Hero just to name a few. Some are not finished while others are not long so should be a quick and interesting watch.

I like Naruto, it's still a classic for me.. I used to like one piece but know it scares me beyond consolation

Goblin Slayer is a good one.

Been watching The Misfit of Demon King Academy. It's on episode 5 now. Not bad.
