Thread: [SES Accounts - 50,000 Daily Limit - All Regions](#)

DigiDan - May 23, 2020, 8:40 am

I am selling SES accounts which is an email sending service. These accounts have a 50,000 daily limit and I can do all regions. Most of my premade accounts are in Oregon / N Virginia, however custom regions can be done upon request. Accounts can come with email access if requested and you can change the registered email if you wish to.

Current Stock: 6

My price per account is \$225 no matter how many you buy, and I only accept Bitcoin.

I appreciate I'm a new member on this forum, so I'm more than happy to use a mutually trusted Middleman to facilitate our deal. I will not ask anyone to go first, and I appreciate if you'll do the same for me. No middleman = no deal.

If you wish to make a deal please open up a contract with me here, and either PM me onsite, or add my Telegram @DigiDanCN

Is that much worth

I don't personally do mailing myself, but yes I have multiple buyers who seem to be very happy to pay \$225 per account daily, so there's certainly ways that people monetize these.

No one is willing to go at this price but good luck with sales

Many people are who I sell to currently, please do some research before mindlessly sales trashing, but good luck in the future. All I'm doing is expending my business to new channels. If you aren't interested in purchasing then why comment with nothing worthwhile to say?

No chance for a slightly better deal on bulk? I'd be willing to offer 200 each if you covered mm fees

Usually atleast 2 billing cycles from what my current clients say, depends on the type of emails you send

Interesting.

Thanks
