Hey, I don't have a shop I just use the accounts I crack for personal use mostly. I could also explain how to start that if necessary it's not very hard using shoppy or sellix! Your revenue depends on how much you advertise and the time you're willing to put into it. Also being strategic with pricing really helps such as selling a VPN account at different rates with warranty > 1 month = \$2, 3 months = \$5 etc. It's a great way to make money with practically nothing.
