Hello fellow 3d block game frienderinos,

today i was playing minecraft with my wife's boyfriend on the realms I bought for us and i heard the bf laughing.

I asked him what was so funny and he told me to come (xd) and when I saw what he had done to our world my mouth dropped wide open.

I couldn't believe what I was seeing. His laughter got louder and louder and eventually he explained what had happened.

After spending some time alone with my wife she told him about how I am Jewish. He must have gotten the idea then.

Because today he used his superfluous hacker skills to execute the pikachu-packet exploit to gain access to the rainbow tables.

This was his second backdoor access of the day and allowed him to get super cis white privledges on the dedotated wam of the server.

Editing the eggybytes of the server code he produced this piece of unspeakable evil...

What should I do frienderinos? I'm literally shaking as I type this.
halp!

I swear this is photoshopped. would never commit such despicable acts against the greatest ally of the United States of America, Israel. I love the Bush presidents, the Iraq war, and the Patriot act

I love John McCain, who is a stronger and more brave hero than Batman

I love gun control.

I love soylent infused smoothies and sipping craft beers

I love flushing hormonal drugs into our fresh water supply

Praise be to our greatest ally!

(Remember when the grieving section got merged into the RPG section? I member)
(I can't wait until people take this seriously)

oh no i knew this genericskid figure was suspicious when i first noticed them crawling on my window sill, i decided to ignore them but they turned around and greifered you that's illegal i could have

squashed them but i let them roam free this is not good i am going to get a bug zapper and if i see this mother frencher ever again i'll squanch him back to last tuesday and then u can get an anti pikachu packet plugin on your server to prevent him from accessing your aurora borealis.

I have to speak my mind when it comes to slandering GenericSkid. He's an amazing person and contributes a lot to our local White Pride meetings.
