There is nothing in the Disallowed Blackhat Activity that says anything about DOXING. I'm not doxing HF members without their permission (Vouch Doxes).

There's an ENTIRE subforum that belongs to doxing. [OpSec and OSINT](#)

I don't understand how it's against the rules, there is literally nothing that says I'm breaking any rule.

Voxcon - May 29, 2020, 12:28 pm

Okay sorry my bad.

I just thought that rule 5. "No posting of personal information that isn't yours." would also imply that personal info is not allowed to be shared.

GLWS then.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
