Thread: [Aliexpress.com CDN Servers - Persistent Doge's](#)

Gee4rce - May 26, 2020, 12:31 pm

Hello there,
over the past years i became very inactive here,
but i still know where i came and learned from,
so i gave HF some shouts in my latest gig.

Link is in twitter post, the address "alicdn.com"
is the Content-Delivery-Netowrk of aliexpress,
usually one is only allowed to upload images.

Hope you guys enjoy! Cheers, Gee4rce (Haxel0rd).

P.S.:

make sure you check the websites of the "testimonials" (;
clicking their avatar opens their webpages hosted at ali CDN.

This is really awesome mate ???, companies really think of take seriousness about wide open
scope of bug bounties.

They should have also fixed it soon ?

Thanks mate, didn't see your answer as i was inactive for longer.

Due to work, my active days here are over, but once in a while i
will try to drop a hack or tutorial in this section ?

But i feel you- there was more life here in the past than today.

P.S.:

i will close this thread since the deface was fixed after a week.

Anyone interested how it looked, here is a video:
