Thread: [animated emoji - facebook reaction](#)

Camf ? - May 27, 2020, 5:14 am

I need an animated emoji created, similar to the reaction emojis on Facebook. I need the emoji "(M)" animated with motion like a Facebook reaction.

Let me know if you can do this, I'll need it done asap.

thanks guys :) ?

yes sir, just with the (M) emoji. The animation doesn't need to be crazy, just something that pops out and is unique
