Thread: [Simple Factions | Factions Done Right | F TOP REWARDS!](#)

Shrooms - May 28, 2020, 5:31 pm

Welcome to Simple Factions
Factions Done Right!

IP - 144.217.10.132:25609
Version - 1.12.2

Simple Factions goal is to bring back old school, very basic factions. No need for huge bases with 100s of walls, no need for massive cannons!
Come play! We have a few players that are active in the forums.

Server Information

You start with nothing, your goal is to make a big farm and then eventually Spawner farms
Claiming costs money, so make sure you're certain you want that piece of land
Spawners - Can be crafted, and picked up with a SilkTouch Pickaxe
PvP has been changed to the old way, the better way
Water/Lava walls can protect your base but will only make TnT do slightly less damage.
Obsidian has health, right click with a piece of redstone to check it's health.
and more!

I'll add more information at some point, feel free to ask any questions here or in game!

rebranded in less than a month, WOW you're going places. Might own a crew if you keep this up

Different server, with nothing to do with Bytes.

Added more things, and will have f top cash rewards. Not re branded at all.

IF a HackerCraft does not open, I'll return to the ByteCraft idea with a more stable economy and working system. It never worked, sadly.

Different server? It's the same IP, it's a rebrand because the OG idea was dead in the water with the mess you created.

What's the FTOP reward look like?

Musketeers - May 29, 2020, 1:03 pm

Was quite excited when I saw someone did a sort of hackercraft. I hope one day it will happen right. #Fruits forever...

Will join. Can I also join with 1.12?

Will be updated soon, having troubles adding f top to the server right now but it will be cash rewards.

It may be revived once I can make a much better economy, for now we're not doing it

That's a quick rebrand, didn't even have a chance to see the original idea go to shit. We'll see where it goes. Good luck, you'll need it.

Good luck with this one mate, I hope it'll work out for you and hopefully you'll be able to figure out a way to make the ByteCraft work :)

Didn't really go to shit, the idea just wasn't stable enough for now. We needed more players to come balance things out.

Thanks mate, it's working better. ByteCraft will come back eventually.
