Thread: [E-WHORING GUIDE FOR BEGINNERS \[EXTREMELY DETAILED\] \[FREE PACK INCLUDED\] \[2200+ WORDS\]](#)

Stone - May 29, 2020, 6:28 pm

Introduction

First of all, before we start, I would really appreciate if you could leave feedback to appreciate my work.

This Thread contains everything you need to know to get started with E-Whoring. To make things simple, I have broken the process into four chapters making it easier for you to use this thread as a reference any time your E-Whoring.

If you have any issues or clarifications, feel free to contact me via PM.

What is E-Whoring?

A simple definition:

E-Whoring is the art of pretending to be a girl & trying to trick men into thinking you are real. You then ask the person for money in order for "sexy" pictures and videos. This is what happens in E-Whoring in a nutshell. Or in other words, the act of using sex appeal to make quick money.

How much money can you make?

It depends. You can make \$30 - \$300 per day if you know what you are doing. It all comes down to how good your Social Engineering skills are & how much time you can devote to this. Make no mistake, E-Whoring is one of the easiest ways to make money online. The best part is it takes little to no effort. You can easily make \$100 in the time it takes to watch a stupid video on youtube.

What do I need to get started?

- 2 PayPal Accounts (Will be explained later)

- E-Whore Pack

- Basic SE Skills

Getting Started

Creating PayPal Accounts

So why do we need two PayPal accounts? One account will act as a receiver accounts and the other will be the holding account.

First of all, you need to make the "Holding Account". People who live in the US or any country where PayPal works DO NOT Need to follow this. The receiver account is where all of your money earned through e whoring will be deposited.

Go to PayPal.com and click on Sign Up. Select the country as the United States (Click on the Country Flag icon and change the country to USA). Use a website like FakeNameGenerator to

create an identity and make the account. Once you've made the account, you need to verify your email. Once That is done, You need to get a US Phone number. For this, you need to download an app called 2ndLine. Using this app, you will be able to get a US phone number for free. Use this number to verify your PayPal account. Once everything is done, you should have an email & mobile verified PayPal account.

Now that we're done with making the "Holding Account", we need to make our receiver account. Go to Gmail or any other email provider and make an email address with the name of the E-Whore/Girl you're pretending to be, For example, I will name my E-Whore, Andrea. Therefore, I will make an email like itsAndrea@gmail.com. or Andreaxoxo@gmail.com.

Once you've made your email, go to PayPal.com and sign up for an account. Use the US or Canada as the country when making the account. This is not compulsory but in my experience, US and especially Candian PayPal accounts barely get banned.

Alright, now you should have two PayPal accounts. The reason we use two PayPal account is that the receiver PayPal account (in my case, Andreaxoxo@gmail.com) will be the PayPal account used to get money from our clients. Once the money is received to the receiver account, It is good practice to transfer that money to your holding account. (The verified PayPal Account) If you do this, In case your holding accounts get locked or banned by PayPal due to a chargeback, which can happen, you will not be given access to your funds. You need to have as little money as possible in your receiver account due to this reason.

And the other main reason why we use two accounts is that a person is more likely to send money to a PayPal account with an email of the girl's name. These little things are the difference between losing clients and making big bucks.

Getting yourself an E-Whore Pack

An E-Whore pack is basically a large collection of Photos/Videos/Nudes of the same girl. I have attached a Basic E-Whore pack with this thread (see the last page). But if you want good results, I would recommend investing in an HQ E-Whore pack because most free packs are too saturated and will not work. You can find many packs in HF's E-Whore section

Seducing your victims

Now that you have your two PayPal accounts and a good pack, we can begin e-whoring. There are a ton of sites where you can find potential clients. I will walk you through the process of E-Whoring on one particular site and link a bunch of other sites with potential clients. The method I teach in this thread is extremely easy and if you have good SE skills and a brain, you can implement the same strategy throughout multiple sites.

My personal favourite site for E-Wore is Tagged.com. Now I know that most people say that is site is saturated. First of all, every site nowadays is saturated. This wasn't the case back in the day because they were only a few E-Whoerers. But now there is a massive E-Whore crowd. This has made E-Whoring tough. Tough, But not impossible. It doesn't matter what site you go to, The only thing that matters is your method and your SE skills. To be honest, you don't even need a "secret" method offered for ridiculous prices. Like I said before, you only need a brain and good SE skills. Now that that's out of the way, let us begin!

Go to Tagged.com & Sign up for an account.

(I would recommend using a US or Canadian IP because people there are most likely to pay big bucks.)

Use your Model/E-Whore's name
(my case Andrea)

NEVER use a nude picture as the profile picture.

(Never post nude photos on Tagged or you will get banned. Use a picture that shows some cleavage. Not too much, Just don't try to be too obvious).

Keep hitting yes

(Go to the 'Meet Me' option and click YES on every profile. I would recommend using an auto clicker to make it less of a hassle. Let it run for a few minutes and you should get messages from random dudes.)

Chatting with the client

Once you are chatting with the client, you need to text exactly like a girl. This is where your brain and social engineering comes into play. Never say that you can offer pics for money at the start. This will ruin your potential target. What you need to do is to sound real. Chat like a girl. Use emojis. And have a story! This is the most important thing. The "Story" I use the most is that I am a college girl who works very hard and how my rent and student loans are a huge burden on me financially. You can use this or some other story. Once you say this, the client knows that you have financial difficulties. Spend some time with the client. During your conversations send some clean photos (Not Nudes), make him want you. Once you've built a solid connection with the client, say that you like being on camera and that you have thought of becoming a cam girl and ask if he would like to help her out. 7/10, He will say yes.

Start with a low price, i.e \$10 for a tit picture, and send him the receiver PayPal account. If he pays, you know that he's down with the game. Tease him more with pictures/videos. Each time ask for more, but be reasonable. If SE'd correctly, you can easily rip off \$200+ from some clients. Especially middle-aged rich dudes & pedos.

Once you find a high-value client like this, he can be your Sugar Daddy. If this happens your set. Find some more Sugar Daddys and your looking at over \$1000 per month.

Remember

This is the basic method. You can implement this exact method as a solid foundation and discover a more unique way to be ahead in the game. Remember once again, In order to make a lot of money with E-Whoring, you need practice. You need experience. You don't need to buy multiples courses/books. What I've explained above is the basic fundamentals of E-Whoring and what other so-called methods have been built upon. All you need to do is to master the basics.

"Don't start to build the top floors without building the foundation first."

E-Whoring on Snapchat

When your E-Whoring, you do not want to be limited to just one website like Tagged.com. Don't expect to catch thousands of fish while fishing in the same spot. When it comes to Snapchat the method we use changes a bit, but the foundation remains the same.

Snapchat is all about views. The problem with Snapchat is that it's mostly filled with broke teenagers who are not going to pay you a dime even in exchange for a nude. So why bother? We can use these people to benefit our operation immensely. Snapchat is all about traffic. Your main goal is to get as much traffic as possible to your SC.

How do you get free traffic? Easy. find around 25-50 accounts of guys who get around 300-500 views. The more the better. Message them and talk for a while. Then tell them that you will send them one nude in exchange for a shoutout from their account. Most guys will be willing to do this without any hesitation. This is how you can get a lot of traffic to your SC account for free and could potentially have HQ clients. You will be getting some messages, Reply to them and use the same strategy & story I explained before.

Obviously, this method takes some time, If you wouldn't mind spending some money, you can buy

shoutouts from “babe” accounts for reasonable prices. This will give your SC account massive exposure and a huge potential in finding good and quality clients. If you ask me, this method is recommended since it saves a lot of time and hassle.

This is how you E-Whore on Snapchat in a nutshell.

E-Whoring on Kik

Kik is one of the most powerful applications to E-Whore on. Again, you do not want to be restricted to one source. Hence you need to learn to E-Whore on Kik too.

First, set up your Kik account. Use the model’s name, in my case, Andrea and pick a cute username. (i.e @andrea19) remember to upload a profile picture (not nude) and complete your profile.

Next, go to the search bar and search for phrases like “dirty talk”, “sexting” etc. Once you do this, join as many groups you can. These groups are filled with potential clients.

You can directly post to the group or contact individual members. Never post nudes on the group. Just describe yourself in a few sentences. (i.e I’m from Toronto, I’m 19, studying at XXXX University etc) people who reply to your message are highly likely to buy your service since they have already shown interest by replying to your message. Contact the people who replied to your message directly and use the “story” method on them.

Once again remember, always go slow and start small. Then build it up by offering more pic/videos at higher prices.

E-Whoring on Facebook

Most people will never believe you could E-Whore on Facebook. This is good because Facebook will not become saturated as other sites.

The holy grail of E-Whoring, in my opinion, is to find a HQ sugar daddy. Now, what’s the normal age of a sugar daddy who has money? 35+ for sure. Most people E-Whore on Snapchat and Kik. The chance of them finding a sugar daddy on the said platform is very very slim. Most sugar daddies are on Facebook. Facebook is an untouched gold mine when it comes to E-whoring. I will explain how you can target and find a list of high potential individuals who are very likely to pay big buck for your service.

Basically, you need to search for adult niche groups and join them similar to Kik. Once joined post about your self and engage in the community. PM a couple of people who are likely the “sugar daddy” type. And go with the “Story” method.

Profile of a sugar daddy:

Age: 35+

Location: US or Canada

Relationship: Unmarried (Important)

You can use this information to target individuals who can potentially become your sugar daddy.

Wrapping things up

Hey! You’ve made it to the end. Congratulations. Now, remember, read this thread thoroughly and follow it to the best you can. If you get stuck at any time or you need any help don’t hesitate to contact me. There is a large E-Whoring community on HF. Make use of this, ask questions, learn from fellow E-Whorers and always remember, it is a trial and error game just like life. Just don’t give

up if things don't work out.

Thank you,
Best of luck,
Stone.
