Thread: [100% OFF UNLIMITED - Domains, SSL's, Emails, 10 GB Storage, Bandwidth - Ends June 30](#)

Sprinkle - May 30, 2020, 7:34 pm

This thread was previously posted here and I was selling \$50 copies:

<https://hackforums.net/showthread.php?tid=6076582>

There were no sales, so I am not undercutting anyone here. This method is highly admired, but maybe just not worth the \$50 to the forum. Anyway, I have decided to offer the secret behind this method absolutely free. This will simply be PM'ed to you in a quick and easy format.

Just post here if you would like the method :)

These domains can be set up with hosting from different company or do we have to buy hosting from the same company. Please let me know. I think I know the method you're talking about here.

Also, this deal is available during COVID period only, I guess.

You are able to set up any domain of your choice, but the method is with a particular hosting company. However it is a very easy process to conduct a domain transfer if in the future you want to take that domain somewhere else. I recommend doing it after a year when you would have to pay a price regardless
